E-RATE CATEGORY 2 ELIGIBLE EQUIPMENT AND SERVICES TO BE PURCHASED UNDER EXISTING GOVERNMENT CONTRACT AWARDS

SECTION 1: A DESCRIPTION OF THE BOCES AND MONROE RIC

The Board of Cooperative Educational Services (BOCES) was created in New York State by legislation, in 1948. Today, there are thirty-seven BOCES in the State. Each has its own governing board, elected by members of the Boards of Education of the component districts. The primary purpose of the BOCES is to provide services to two or more member districts more effectively and economically than one district could provide alone.

BOCES is an educational agency of the State, and must, therefore, adhere to all laws and regulations of the State of New York, which govern the public schools in the State, as well as regulations controlling the BOCES. BOCES receives most of its revenue from component districts for the services BOCES provides. In return, the member districts receive BOCES aid based on their relative wealth and use of the services.

The Board of Cooperative Educational Services 1st Supervisory District of Monroe County, also known as "Monroe #1 BOCES," was created in 1956, and today serves ten (10) component districts located within the Monroe County area.

The Monroe Regional Information Center (Monroe RIC), a division of BOCES, located at 11 Linden Park, Rochester, NY 14625 is a consortium of school districts as well as a computer systems integrator and customer support center for 19 public K-12 school districts in upstate New York and two BOCES. Among the services the Monroe RIC offers to our school districts is assistance with E-Rate-funded procurements.
