Narrative

This narrative should be more helpful to vendors than the information provided in the drop down menus above. They are vague and lack space for explanation so we have no choice but to utilize the narrative to let you know what is actually being applied for. For local and long distance the form does not give an option for “lines” therefore where “users” is indicated that is actually the estimated number of phone lines. For cellular service, data plans may be included in bids (with cost-allocation) however they’re no longer eligible in most cases. All vendor communication/questions should be in writing via email directed to the contact on this form no later than the Allowable Contract Date of this 470. Seeking bids on the following services: approximately 74 lines of cellular phone service (data plans may be included in bids although they're no longer eligible); 14 lines of interconnected VOIP and 24 lines of local and long distance phone service.
