Narrative
This is a single circuit with two end-points, as described in the RFP. It could potentially bill as a quantity of one or two, depending on the configuration and billing of the successful service provider USAC SLD experienced a system problem with our initial FCC Form 470#160024294 which was submitted on 2/3/2016, which resulted in a system generated glitch that displayed a certified form with "0" entities versus the actual 10 entities (see Customer Service Case #47478); Since the early morning hours of 2/4/16, our form has high priority status, however, a decision concerning the viability of our form is unknown and pending). We are posting this "new" form and attaching the existing RFP which was posted on 2/3/16 and will be posting an addendum with an extension to

submit bid responses, to accommodate the "new" system generated allowable contract date. Pursuant to PCC 20188.2, the newspaper solicitations for our RFP meet the requirements.
As a precaution, we are listing the eligible entities in the narrative section to reinforce the quantity of sites that should appear in the Application Type and Recipients of Service portion of this form: Total Quantity=10
