Narrative
All figures/values are approximate. The quantities listed on this form represent lines, not user counts. At the time of posting this Form 470, a definition has not been provided for 'users'. The District is seeking VOIP or equivalent phone service on approximately 65 - 310 total lines at 13 locations. The District is also seeking voice service for approximately 500-600 cellular phone lines. The District is seeking bids for 100 Mbps of Internet Access, scalable to 25Gbps, which can be increased over the life of the contract if applicable, at four district sites. The District reserves the right to modify the quantities of lines, sites and circuits; the quantities listed are representative of the District's current services, which could fluctuate by growth in existing schools, and for new schools that could open during the term of the contract (if applicable) that results from this procurement. Please see the attached supplementary documentation for further information on the services listed on this form.
