Narrative

The District is seeking bids on the equipment listed below. Sales tax, installation and any other costs associated with the bid should be included but listed on separate line of you bid. All bids should be submitted by the allowable contract date listed on this Form 470.

The District is looking for proposals to replace the current pair of Ruckus ZoneDirector 3050 controllers in smart redundancy with an equivalent pair of redundant Ruckus SmartZone controllers that will support 500 wireless access points. Vendor should provide proposals for 1) the cost for parts and labor to do the upgrade for both a pair of physical controllers and 2) the cost for parts and labor to do the upgrade for both a pair of virtual controllers. The district has a VMware virtual infrastructure that could possibly run the virtual controllers. The final decision of physical or virtual rests with the District based on needed VMware resources.

Provide options for support and software updates that are eligible under E-rate.

Given the critical nature of our wireless infrastructure and that we are 100% Ruckus Access points, the District is specifying Ruckus products only to do the controller upgrade.
