State and Local Procurement Restrictions

Amounts over 15,000 require bid, due date to be 28 days after posting of this form.

The applicant will consider equipment that provides the equivalent functionality of the equipment listed. If the vendor is proposing equivalent equipment, the vendor must provide documentation demonstrating that the substitute equipment provides the same functionality.

The quoted pricing must not assume the District will purchase full quantities listed in the bid. The District reserves the right to place orders on an as-needed basis and will be under no obligation to order all products/services at once. Licensing for new equipment is often considered by USAC to have a component which it considers to be Basic Maintenance of Internal Connections, which is the reason basic maintenance is listed on this Form 470.

To assure full consideration, bids and/or information requests directed to the applicant contact provided in this Form 470 should reference the nine-digit Form 470 number. All proposed pricing should be embedded within any bid proposal. Subject to contract restrictions, services may be reevaluated for cost-effectiveness at any time during the year. Bids for services requested, therefore, will be accepted up to 28 days after the posting of next year's Form 470. As required by E-rate rules, all bids in response to this Form 470 must offer the Lowest Corresponding Price (LCP). See <http://www.usac.org/sl/serviceproviders/step02/lowestcorresponding-price.aspx>.
