Narrative
The school is seeking bids for Internet service. Vendors should provide pricing for all incremental bandwidth speeds from 500Mbps up to 10Gbps. It is the intent of the School to procure services that may be adjusted for the addition of new sites, relocation of sites, or adjustments to the quantity and/or capacity of service, in accordance with the terms of any resulting contract or service agreement.

State and Local Procurement Restrictions

All responding vendors must have a Service Provider Identification Number (SPIN). The School will consider a multi-year contract or a one-year contract with one or more voluntary extensions. Any contract resulting from this procurement must allow for incremental bandwidth speed increases over the term of the resulting contract. The School intends to use the Service Provider Invoice (SPI) method for reimbursement. Vendors unable to accommodate SPI should clearly identify this in their bids and provide justification. Participation in the State of Oklahoma Statewide Contracts is required. Any bids received that are not based on the state contract will be disqualified. SPAM and/or robotic responses will not be considered valid responses and will be disqualified from consideration.
