If the circuit is shared, the contention ratio (potential number of potential users on the circuit simultaneously) of service must be specified in the bid. If data limits are a part of the service then the data cap as well as overage charges must be included in the bid. - All bids are due on or before January 1st, 2027. Any contracts should contain the language that the agreement is contingent upon state and/or federal funding, which effects the applicant's ability to pay. - The method of transport delivery (fiber, copper, satellite, microwave, etc.) should be specified in the bid. If last mile and middle mile transport differ, both methods of delivery should be specified in the bid. - Disqualifying factors: Successful bidders should be willing to provide discounted billing and invoice USAC via a Service Provider Invoice (SPI). Cost of eligible services must be separated from cost of ineligible services. -The district would appreciate bids also being provided in PDF format via email (jbullock@dlgsd.org) to allow for easy digital transmission when answering requests for information from USAC. If your organization lacks the capacity to provide bids in this manner, the district will still consider the bid on equal terms with other bidders. Bids must include a written statement that The bid is firm and will not be withdrawn before July 1st, 2027.
