Offerors are responsible for monitoring this FCC Form 470 as well as eVA for all updates to this RFP up to, and including, the bid due date.

Newport News Public Schools (NNPS) is seeking proposals from qualified Internet Service Providers (ISPs) for two (2) separate Internet access circuits, one delivered to each of the two NNPS data centers. NNPS intends to enter into an agreement for two (2) 20 Gbps circuits, for a total initial capacity of 40 Gbps across the two locations. Bidders are also encouraged to price other bandwidth levels (10 Gbps, and 30 Gbps through 100 Gbps in 10 Gbps increments), and NNPS reserves the right to contract at any level priced, for either or both circuits independently, as described in Section 3, Item 16 of the RFP. The two circuits are to operate as independent services, each capable of carrying district traffic on its own. They are not a single 20 Gbps service divided between two sites. This matches NNPS's current configuration: two (2) 20 Gbps Internet circuits, one at each data center, each delivered on a single 100 Gigabit Ethernet handoff.
