St Lawrence Catholic School
Addendum to Form 470 270001258

Addendum Issue Date: November 9, 2026

The purpose of this addendum is to communicate to all potential bidders the written questions and responses related to the Form 470 and to extend the due date to receive bids.

1. Are the existing EnGenius access points and switches currently registered and managed within EnGenius Cloud, and will the awarded service provider be provided the administrative access necessary to monitor and manage those devices? Yes
2. Will existing network documentation and configuration information, including VLANs, SSIDs, IP addressing, firewall policies, and switch configurations, be made available to the awarded service provider? Yes
3. For the existing Ubiquiti Dream Machine, should the proposed service include firewall policy changes, firmware updates, VPN configuration, security-related configuration, and troubleshooting? Yes
4. Please clarify the expected MIBS/BMIC services for the listed UPS devices and StarTech racks. Is the expectation monitoring, maintenance and troubleshooting, or another defined level of service? Yes, no other level of service.
5. Does St. Lawrence require on-site support as part of the managed service? Are there specific response-time expectations for on-site dispatch? Additionally, what support hours are expected outside of normal business hours? Yes, on-site support is requested. Describe your response time and available support hours in your response.
6. Is the network currently supported or managed by another service provider? If so, will the current provider participate in the transition and provide the configuration information, credentials, and documentation necessary for onboarding? Yes, the onboarding would be provided by the school.

The due date is now December 7, 2026 at Noon.

All other items remain the same.
