

All bid deadlines are 11:59pm Pacific Time the date of the bid deadline listed unless otherwise noted.

 Lane Elementary Sch Dist 22

 **IFCB Posted** : Oct 2, 2026

 **Bid Deadline** : Friday, Nov 13, 2026

 **Questions Due By** : Sunday, Oct 11, 2026

 **Applicant Address** : Lane, OK 74555

 **IFCB ID** : 270001442

IFCB Requirements :

- Before the listed deadlines, all Questions and Bids must be submitted using the on-line IFCB system. Bids submitted before the bid deadline outside of this system will be disqualified. If the system is down before the deadline, please email your bid to info@crwconsulting.com or fax it to 918.445.0049. Bids or questions submitted in this fashion will be disqualified if the on-line system is active at the time of submission. The applicant reserves the right to request and obtain bids outside of the website system if the bid deadline has passed and zero or one bid is received (the intent for this is to follow USAC guidance on obtaining cost-effective bids).
- For all requested services and/or products listed on this IFCB: proposals that include generic/encyclopedic price lists will be considered non-responsive and will be disqualified. SPAM and/or robotic responses will not be considered valid bid responses and will be disqualified from consideration.
- Bidder must agree to participate in USF Program (AKA “E-rate”) for the corresponding funding year.
- Please include the correct Service Provider Identification Number (SPIN) on your bid.
- By submitting a bid, bidder certifies that the bidder does have a valid (non-red light status) SPIN for the E-rate program at the time of submission. Should the Applicant discover that the bidder is on red light status, or if the FCC classifies the bidder as on red-light status before work is performed and invoices are paid, the contract will be null and void and the applicant will have no payment obligations to the bidder.
- Bidder is expected to provide the lowest corresponding price per E-rate rules. See <https://www.usac.org/e-rate/service-providers/step-2-responding-to-bids/lowest-corresponding-price/> for details.
- Contracts must not prohibit SPIN changes.
- Bidder must agree to provide the Applicant the choice of discount methods (SPI or BEAR).
- Bidder will be automatically disqualified if the District determines that the bidding company has offered any employee of the District any individual gift of more than \$20 or gifts totaling more than \$50 within a 12 month period.
- All contracts awarded will be contingent upon E-rate funding and final board approval. The applicant may choose to do all or part of the project upon funding notification.
- All applicable fees, surcharges, and taxes must be identified on the bid. E-rate rules require the applicants to evaluate the price of eligible goods and services that will be listed on the 471 application during the competitive bidding process. Fees and surcharges that apply but are not listed on the bid will be the responsibility of the bidding company, should their bid be awarded.
- If there is a request to purchase or lease new equipment, either Category Two or Category One, listed on this IFCB the applicant will accept bids for functionally equivalent equipment.
- DISQUALIFICATION FACTOR INTERNAL CONNECTIONS: The applicant will not accept bids from manufacturers of equipment deemed a national security threat by the Federal Communications Commission. The list of prohibited equipment is available here: <https://www.fcc.gov/supplychain/coveredlist> . Vendors that submit bids that includes these manufacturers will have their bid disqualified.
- DISQUALIFICATION FACTOR INTERNAL CONNECTIONS: Vendors must complete and include the C2 Cover Page with their bid. Bids received without the cover page will be disqualified.
- DISQUALIFICATION FACTOR INTERNAL CONNECTIONS: Service providers are required to bid the entire hardware project. Bids for individual components, or bids that do not include all of the requested items for the project will be disqualified.
- DISQUALIFICATION FACTOR INTERNAL CONNECTIONS: Applicant will not accept bids for refurbished equipment. Any bids containing refurbished equipment will be disqualified.

Services and Equipment Requested :

Category Two:
INTERNAL CONNECTIONS
No installation is needed.

Type of Equipment	Quantity Vendor Should Bid	Preferred Make/Manufacturer
UPS/Battery Backup	12	APC BR1500VA – 10 outlets

Questions Received with Applicant Answers (Ask Questions?)

Would you please provide an exact manufacturer part number or some specifications as to which model you are referring to? For example, the BR 1500VA series has two models, one with 865 watts and one with 900 watts power. Please specify the power output.

Answer:

The one with the 900 watts. As long as it has the surge protector plug ins.

Do you need Rackmount or Floor UPS's?

Answer:

Rack mounts, we currently have them attached to the bottom of the racks or sitting next to the racks.

Please provide End Customer info and POC (name, phone, email) and address.

Answer:

That information will be provided to the winning vendor

Would APC BR1500MS2 tower units placed on existing shelves or beside the racks be acceptable? If units must attach directly to the rack, please confirm the rack type, available mounting depth, and whether mounting hardware must be included. Is a configuration of six battery backup outlets with surge protection and four surge-only outlets acceptable?

Answer:

I am not sure of the rack type as far as the name, but this is what we currently have and all are undermounted to the racks.

Brand	APC
Battery Cell Composition	Lead Acid
Product Dimensions	15"D x 4.4"W x 11.9"H
Voltage	120 volts
Color	Black

follow-up to the posted mounting answer for IFCB 270001442: (1) Please confirm whether twelve APC BR1500MS2 1500VA/900W, 10-outlet tower UPS units placed beside the racks or on existing shelves are acceptable, with six battery-backup/surge outlets and four surge-only outlets. If direct undermount/rack attachment is required for every unit, please state the required mounting dimensions and whether a manufacturer-approved mounting kit/shelf must be included. (2) The latest answer refers to a picture of the current installation, but no picture is visible in the public IFCB. Please attach the picture or provide the current UPS model and mounting arrangement. We will follow the published no-installation scope; this clarification is to select a safe, complete equipment configuration.

Answer:

This is what we currently use and want to replace with the same or better. Bids for functionally equivalent equipment will be accepted.
