ADDENDUM 1 POSTED ON USAC WEBSITE

ADDENDUM 1 FOR RFP #26-MI-91
SINGLE MODE FIBER OPTIC CABLE - SLE

NOTE: Vendor questions and District responses are hereby incorporated into the RFP, any changes or additions to the requirements/conditions and shall be included in your response.

Question 1:
For RFP 26-MI-91, Form 470 number 270001517, the specifications permit “Corning or equal.” Please confirm whether SBCC will accept for this bid:

1. Belden's installer certification, provided it is equivalent in scope, qualifications, and requirements to the requested Corning EWP certification; and
2. Belden's system warranty, provided it offers coverage equivalent to the requested 25-year Corning warranty.

Answer 1:
Mandatory baseline requirements are listed on Page 9-10 of the RFP. Bidders must propose solutions meeting or exceeding the published specifications in this RFP. Per Page 2 ("Manufacturer's Names and Approved Equivalents"), bidders may propose equivalent products.

Question 2:
The scope calls for installation, termination, testing, and commissioning of a new OS2 single-mode fiber backbone capable of supporting 10G connectivity. Fiber patch cords are specifically required; however, SFP/SFP+ transceivers are not identified in the material requirements or pricing schedule. Please confirm whether single-mode SFP/SFP+ transceivers, their installation, and associated switch configuration will be provided by the District or under a separate contract and are excluded from this RFP’s scope. If any of these items are required under this RFP, please provide the required quantities, switch makes and models, transceiver specifications or approved part numbers, and the extent of installation and configuration services required.

Answer 2:
Single-mode SFP/SFP+ transceivers, their installation, and associated switch configuration are excluded from the scope of RFP 26-MI-91 and will be provided by the District.

Question 3:
I wanted to see if HP Communications would still be eligible for this RFP? I know we missed scheduling a walkthrough but wanted to reach out just in case? Also is a Spin number required to submit for this RFP?

Answer 3:
Per page 10, walk throughs were mandatory to participate in this RFP, the opportunity for a walk through is now closed. Spin numbers for registered E-Rate vendors are required under USAC guidelines.

REMINDER: Proposals are DUE at 2:00 PM EST, on November 10, 2026 and the Proposers should provide their best offer with the initial proposal since the District reserves the right to award a contract based on initial Proposal without any further negotiations.

Except as noted above, all other Conditions and Specifications remain unchanged. Include, as part of your proposal package an executed copy of this Addendum.

Sign and return this ADDENDUM 1 with your proposal.
