Narrative
MPORTANT INFORMATION: Form 470 counts are estimates. Pleasantdale School District 107 seeks proposals for Category Two Internal Connections to replace existing OM1 fiber cabling with new OM4 fiber cabling serving four network closets: Middle School MDF (Room B2), Library IDF, STEM Room IDF, and District Office IDF. Bidders must verify existing connections and pathways and determine cable lengths, runs, strand counts, termination hardware, and other components necessary for a complete working solution. If OM4 is unsuitable for any link, identify the limitation and provide a technically justified, separately priced alternative. Include installation, testing, physical cutover, labeling, documentation, and a minimum 20-year certified manufacturer warranty for installed and tested cabling. Remove and dispose of replaced fiber cabling only. Inventory, label, protect, and return all legacy adapters and associated assemblies intact to the District with a signed receipt. District-provided switches, optical transceivers, and network configuration are outside the contractors base scope. All on-site installation work must be performed by union workers. Contractors and subcontractors must comply with applicable Illinois prevailing wage and certified payroll requirements. On-site installation, cutover, testing, and removal must occur during the District-approved July 2027 window after summer school concludes. Vendor registration and Mandatory Walkthrough: Register by December 7, 2026, at 4:00 p.m. CST by emailing James Mukite, Technology Director, at jmukite@d107.org.
