Posting of Questions/Clarifications	11/13/2026
Proposal Submission Deadline	12/11/2026 10:00 AM MST

Communications and Questions

All communication with the Applicant regarding this solicitation **must** be emailed and received by the "Deadline to Submit Questions" noted in the "Procurement Timeline." Questions should be directed to all "Form 470 Contacts" listed above, with the Form 470 Number included in the subject line. Failure to include all "Form 470 Contacts" could result in questions going unanswered. Verbal inquiries are not allowed. Clarifications, when applicable, will be posted as an attachment/addendum to the Form 470. Each Offeror is responsible for downloading the current version of the Form 470 and attachments, including any addenda. Applicant reserves the right to ask vendors clarifying questions during the proposal review process.

Contact initiated by an Offeror concerning this solicitation with any other Applicant representative other than those listed as Form 470 contacts is prohibited. Unauthorized contact may result in the offeror's disqualification from this solicitation.

Proposal Instructions

Proposals **must** be submitted by the Proposal Submission Deadline in the Procurement Timeline.

Proposals should be emailed to ALL Form 470 Contacts listed above and include the following:

- Applicant name
- Form 470 number
- SPIN (Service Provider Identification Number)
- Service provider's terms and conditions
- Completed Pricing Attachment

Proposals **must** include **all** costs associated with providing service, including but not limited to:

- Monthly recurring charges (MRC) include any recurring charge related to delivering the services, such as monthly charges for Internet access, transport service, IP addresses, basic terminating equipment, etc.
- Non-Recurring Charges (NRC) include any one-time fee other than special construction charges. This includes but is not limited to installation charges, connection charges, and/or basic terminating equipment charges.
- Special Construction Charges (SPC) include one-time costs for deploying new fiber or upgrading network facilities for eligible entities. These charges are non-recurring and include the following components: construction of network facilities, design and engineering, and project management. Offerors should provide special construction details sufficient to support E-Rate review, including route feet, cost per foot, and plant mix where applicable.
- Failure to identify the monthly recurring, non-recurring, and special construction charges will result in the disqualification of the proposal. Respondents are encouraged to provide the estimated taxes and surcharges associated with the service. Submissions indicating that there may be additional MRC, NRC, or SPC related to delivering the services **WILL** be disqualified.

Proposal pricing should be included in the Pricing Attachment provided and be submitted in xls or xlsx format. Any E-Rate ineligible costs should be clearly identified.

Proposals **must** be in response to the specific requirements of this solicitation. Offers including a generic listing of services beyond the scope of this solicitation and/or encyclopedic price lists will be disqualified. SPAM and/or robotic responses will not be considered valid responses and will be disqualified from consideration.

Applicant reserves the right to consider its existing service as a standing proposal and evaluate it against the other submitted proposals.

Service Requirements

Applicant is seeking proposals for Dedicated Internet Access (DIA) and/or Wide Area Network (WAN) Data Transport service. Offerors may submit proposals for DIA, WAN Transport, or both services. The applicant will evaluate DIA and WAN Transport independently and will award each service to the most cost-effective response.

If the Offeror's proposed pricing is dependent on being awarded both DIA and WAN Transport, this must be explicitly stated in the proposal.

Vendors offering pricing that is dependent on winning both DIA and WAN transport will **ONLY** be awarded a service, if they have the highest scoring bid for **BOTH** services.

Vendors offering pricing dependent on winning both services, are also encouraged to submit independent

pricing for each service type. Submitting independent pricing will provide these vendors with an opportunity to win one of services if their bundled pricing does not win both categories.

Dedicated Internet Access (DIA): Applicant **requires** a minimum of 5 Gbps download x 5 Gbps upload fully managed Dedicated Internet Access with Transport service to the Network Operations Center (NOC) location specified in the Pricing Attachment. Service providers are requested to submit offers for incremental bandwidths from 5 Gbps up to 10 Gbps.

Wide Area Network (WAN) Data Transport: Applicant **requires** a minimum of (13) 1 Gbps download x 1 Gbps, (1) 2.5 Gbps download x 2.5 Gbps, and (2) 10 Gbps download x 10 Gbps upload fully managed Transport connections between the Applicant's Internet hub site and the Wide Area Network Transport locations listed in the Pricing Attachment. Service providers are requested to submit offers for incremental bandwidths from 1 Gbps up to 10 Gbps. To be considered, offers for Transport service **must** include all listed locations.

All proposed solutions **must** be within the specified bandwidth range to be eligible for consideration. In addition to the specified minimum and maximum bandwidths, Service Providers are encouraged to offer a variety of bandwidth options within this range. Refer to the Pricing Attachment for the requested service levels. If the exact bandwidths listed are not available, vendors should include their closest comparable service level for consideration.

Submissions meeting any of the three (3) numbered criteria **WILL** be disqualified.

1. Solution does **NOT** offer at least the minimum bandwidth.
2. Solution does **NOT** offer bandwidth dedicated to the applicant but instead, the bandwidth is dependent on the number of other customers on the network or some other factor that does not, generally, guarantee the minimum bandwidth as a committed information rate (CIR).
3. Solution includes caps on data usage or slows speeds based on data usage or other factors.

All solutions must terminate service or infrastructure at the demarcation point within the building, generally, the MDF. Solutions that only bring service to the property line but not to the demarcation point will be disqualified. The agreement must terminate service at an MDF designated by the Applicant. The Offeror should specify the exact demarcation setup included in the base fees, such as wall-mounted CPE and CAT6a handoff, rack mount patch panel, etc.

Offerors must accept responsibility for site delivery, construction, permitting, pathway, and right-of-way costs required to deliver service.

Contract Term and Modifications

Services are needed effective July 1, 2027. If the service cannot be guaranteed by this date, this should be indicated in the proposal, along with an estimated timeline for when the service will be available.

Offers of month-to-month or contracted services will be considered. Service providers submitting proposals for contracted service are requested to provide 60-month pricing. Unless otherwise stated, the customer can voluntarily extend the agreement for two (2) additional twelve (12) month terms. Offers requiring an initial term of more than 60 months will not be considered.

All contracts should permit bandwidth increases during the term. Any such increases, including those during optional renewal periods, will be treated as modifications to the existing agreement rather than new agreements and, therefore, will **NOT** extend the contract's term.

All contracts should include a provision allowing for early termination of circuits without penalty if a location is closed by the Applicant.

All contracts should include a clause allowing additional sites to be added at the existing MRC for the duration of the agreement, with the Applicant covering any one-time charges related to adding the new site to the network. Any additional sites added will have the same end date as the main agreement.

No price increases will be permitted during the term of the agreement.

Service providers proposing equipment whose prices may increase depending upon new U.S. government tariffs imposed on imports are encouraged to (a) identify such products in their offers, and (b) propose an acceptable methodology for limiting price adjustments over the life of the contract.

Subject to contract restrictions, services may be reevaluated for cost-effectiveness at any time during the life of the agreement including renewal periods.

E-Rate Specific Considerations/Information

Per USAC E-Rate rules, “cost of eligible services” will be the highest valued criterion in the evaluation process; however, other criteria with a lesser value may also be considered.

Service providers proposing a temporary equipment loan for product demonstration and/or evaluation purposes are **required** to clearly state that such loans are of limited duration. Product demos extending beyond thirty (30) days must be explicitly authorized by both parties and provided at a fair market rate.

By submitting a proposal on the requested services herein, the vendor certifies its proposed services and/or products comply with Parts 47 Section 54.9 and 54.10 of the FCC rules which prohibits the sale, provision, maintenance, modification, or other support of equipment or services provided or manufactured by Huawei, ZTE, or any other covered company posing a national security threat to the integrity of communications networks or the communications supply chain. See https://www.usac.org/about/reports-orders/supply-chain/ for more details.

As required by Section 54.500(f) of Part 47 of the Code of Federal Regulations all bids in response to this

RFP **must** offer the lowest corresponding price (LCP) which is defined as the lowest price that a service provider charges to nonresidential customers who are similarly situated to a particular E-Rate applicant (school, library, or consortium) for similar services. See https://www.usac.org/E-Rate/service-providers/step-2-responding-to-bids/lowest-corresponding-price/ for more details.

Additional Considerations/Information

Applicant is subject to Montana STATE/LOCAL policy restrictions.

The language in this solicitation has been standardized: "must," "shall," "mandatory," and "required" indicate mandatory specifications that the Applicant expects in the proposed solution. Proposals failing to meet these will be disqualified. "Should" and "may" indicate desirable specifications. A mandatory requirement may be waived if all respondents fail to meet a mandatory requirement.

Applicant reserves the right to waive any irregularities or informalities in the proposals received.

Offerors must accept that Applicant obligations are contingent on appropriation and availability of funds and may be reduced or terminated without penalty if funds are unavailable.

Applicant reserves the right to award all, part or none of the services set forth in this procurement. This procurement does not obligate Applicant until a valid agreement and/or valid Purchase Order is executed.

The Applicant reserves the right to request Best and Final Offers (BAFOs) from one or more Offerors. BAFOs must be received by the date and time specified during discussions or negotiations. If an Offeror does not submit a BAFO by the stated deadline, the Applicant will evaluate that Offeror based on its originally submitted proposal. If BAFOs are requested, the Applicant reserves the right to conduct a subsequent evaluation and scoring of proposals, including any revised pricing and other information submitted in response to the BAFO request, in accordance with the evaluation criteria set forth in this solicitation.

Applicant may, at its sole discretion, extend the due date for the submission of proposals and any extensions shall be done via an addendum posted in the E-Rate Productivity Center (EPC.)

The vendor submission is subject to open records requests and, as such, the records will be released in accordance with those policies. Vendors are encouraged to mark pages as “Proprietary” or “Confidential” as appropriate, but the entire submission may not be marked as such. Identifying information as “Proprietary” or “Confidential” does not guarantee that the information will not be released but will be considered in determining whether the information is required to be released in accordance with the open records policies. Generally, pricing is not exempt from being publicly released.

By submitting a proposal, the Offeror certifies that no relationship exists between the Offeror and Applicant that would interfere with a fair and open competition or is a conflict of interest.

Evaluation Criteria

These criteria are to be utilized in the evaluation of offers to be considered. Individual criteria have been assigned a weight to reflect relative importance. Vendors are encouraged to provide details in their proposals that address the following criteria.

Criteria		Weight
E-Rate Eligible Costs	E-Rate eligible recurring and non-recurring costs	**35%**
E-Rate Ineligible Costs	E-Rate ineligible recurring and non-recurring costs	**5%**
Technical Merit / Capability	Ability of the proposed solution to meet the scope, specifications, and requirements of this solicitation	**25%**
Prior Experience	Applicant's previous experience with the vendor, including performance history and quality of past service	**20%**
Local Presence	Proximity of vendor offices/staff, availability of local representation, and responsiveness to service calls	**10%**
Proposal Responsiveness	Completeness and clarity of the proposal submission, including all required forms and attachments (e.g., Pricing Attachment)	**5%**
