Bid Submission and Award

The District intends to make one award for all Extreme Networks items and a separate award for the Sophos subscription renewal. Vendors may bid on either or both awards. To be considered responsive and eligible for the Extreme Networks award, a proposal must include all Extreme Networks items and pricing for both requested support options. The District will select one support option for each applicable equipment group. Vendors bidding only on the Sophos renewal are not required to bid on the Extreme Networks items. The District will evaluate each scope independently and select the most cost-effective responsive bid for each award.

Proposals must be prepared with specificity with regard to the servcies listed herein. Bids merely listing a general menu of services available from a vendor, bids appearing to be automatically generated without specificity in relation to the requirements of this RFP, and bids missing substantial information but inviting the applicant to contact the bidder to refine the bid and/or discuss specifics will not be considered valid bid responses and may be disqualified from consideration. This includes any SPAM and/or robotic responses. For more information, please review the USAC E-Rate News Brief of February 15, 2024.
