Questions, Answers, and Clarifications to RFP 27-108

1. RFP page 18 requires Department of Industrial Relations Public Works Contractor Registration for bidders on public work. This RFP is for equipment delivery only, with no installation. Please confirm that DIR registration is not required for this RFP.

   Answer: This RFP is not a public works project therefore any potential bidders are not required to be registered with DIR and/or submit any of the above mentioned forms.

2. Is the purchase order the District issues to the awarded bidder considered one of the RFP documents that the Letter of Agreement allows the District to terminate?

   Answer: The District will only issue a Purchase Order upon completion of awarding the winning bid response, board approval and USAC funding.

3. RFP page 16 and the Letter of Agreement allow the District to cancel a purchase order. If that happens after we have ordered and shipped equipment, will the District pay for what was already ordered?

   Answer: The District will only issue a Purchase Order and proceed with the project upon completion of awarding the winning bid response, board approval and USAC funding.

4. The part number for the CX 6200F 48G Class4 PoE 4SFP+ 370W switch is printed as "JL7278". Please confirm whether the intended part is JL727B (or JL727A), and whether an equivalent with the same port and PoE budget is acceptable.

   Answer: The part number is JL727B. Please refer to RFP for complete details.

5. Should the 76 ineligible switches listed on page 6 be priced as a separate, non-E-Rate line in the same proposal?

   Answer: Yes, the Non-E-Rate sites should be listed on a separate line. Please refer to the Cost Proposal within the RFP and exhibit D excel spreadsheet.

6. Ship-to: will delivery go to the District warehouse (5133 Engle Road) or to each site on the List of Sites? Is any configuration or staging expected for this RFP, or is it hardware only?

   Answer: Yes, please deliver to 5133 Engle Road. It is for hardware only. No configuration or staging is needed by the vendor.
