REQUEST FOR PROPOSALS (RFP) SWITCH EQUIPMENT – ERATE YR 2027 (YR30)

RFQ NO. 27-016

ADDENDUM NO. 1 – DATED NOVEMBER 10, 2026

I. Summary of Questions & Responses

Below are questions received by the November 10, 2026, deadline and the District's responses.

The specified switches include both SFP56 (50G) and SFP28 (25G) uplink ports. Would switches with SFP28 (25G) uplinks be considered an acceptable equivalent?	SFP56 is required.
The District's Form 470 references a mandatory walk-through on November 4, 2026. Can the District confirm whether attendance was required for responders to RFP 27-016, or whether that walk-through applied only to the cabling infrastructure project?	The Mandatory walk was specifically for RFP 27-017 only.
