PROPOSAL SPECIFICATIONS

** PROPOSALS REQUESTED FOR MANUFACTURER AS LISTED OR EQUIVALENT **

Applicant is seeking proposals for the items listed below and estimated quantities shown. The Applicant will work with the awarded offeror to specify items per site within the Applicant's E-Rate category two budget for E-Rate 2027-2028. The Applicant reserves the right to purchase some, all, or none of the products and services awarded under this contract for E-Rate 2027-2028 and subsequent E-Rate funding years covered by the agreement.

- Offerors are requested to include all necessary installation and configuration (if applicable), cabling, licenses, connectors, components, shipping and handling, taxes and any other applicable fees.
- The applicant is requesting basic maintenance for new equipment including manufacturer maintenance support services (MSS) and bundled warranty only for equipment listed on this request.
- The applicant will consider proposals for managed internal broadband services (MIBS) for any remote management components necessary for a fully operational solution.
- Licensing may often be considered to include Basic Maintenance of Internal Connections (BMIC) or Managed Internal Broadband Service (MIBS) components. Licenses that include services such as software upgrades and patches, (including bug fixes and security patches), and online and telephone-based technical assistance and tools that are typically standard fixed priced offerings or manufacturer maintenance support services (MSS) are sometimes classified as Managed Internal Broadband (MIBS) or Basic Maintenance of Internal Connections (BMIC) by USAC. MIBS and BMIC have been included in the 470 for new equipment requests for this purpose.
- Partial/incomplete proposals will not be considered.

SPECIAL NOTE: The requestor expects that any respondent to this solicitation familiarizes themselves with the impact of current and potential tariff(s) imposed upon a particular manufacturer's products. Any such tariffs must be appropriately accounted for in the respondent's fee proposal. Presume a 25% tariff will be imposed on any manufacturer's networking equipment manufactured abroad and may be applicable at the time of purchase throughout the term of any agreement resulting from this solicitation (including any mutually agreed upon extensions). INCLUDE THIS 25% TARIFF AS A SEPARATE LINE ITEM WHEN COMPLETING THE PRICING ATTACHMENT AS PRESENTED. The requestor also expects that the presumed tariff should be LESS than 25% or not ultimately be imposed upon the manufacturer's product, the cost saving will be passed along to them and, in turn, the FCC's E-Rate program as well. It should also be presumed by respondents that should any tariff imposed upon a particular manufacturer's product be higher than 25% at the time of

purchase, the requestor will appropriately compensate the service provider for the full cost incurred at the time of purchase without regard to E-Rate eligible invoicing.

3. **Equivalent products and services.** Any manufacturer of names, brand names, model numbers, or part numbers referenced in this RFP are provided solely to establish the minimum requirements for functionality, performance, quality, compatibility, and interoperability. They are not intended to limit competition or to require a specific manufacturer. Proposals may offer specified products or equivalent products from other manufacturers. Vendors proposing an equivalent product must clearly identify the proposed product's manufacturer, model number, and part number, and must include manufacturer-published technical documentation sufficient to demonstrate that the product meets or exceeds the specified requirements and functionality. Where applicable, proposed equivalents must be fully compatible and interoperable with the applicant's existing network environment. The vendor is responsible for identifying and including any additional hardware, software, licenses, modules, connectors, transceivers, accessories, configuration, or other components needed for the proposed equivalent to deliver the functionality required by this RFP. Offeror for services other than tariff or month-to-month arrangements, must include a contract or legally binding agreement in response to this RFP with signature block for both service provider and applicant. The agreement should be provided in form only and will not be completed and executed until after proposals are awarded by applicant and negotiations completed as applicable. *Quotes are not considered a legally binding agreement.*

14. **Contract Terms.** Offerors must clearly define contract terms for all pricing submitted. The applicant school or library may consider multi-year contracts featuring voluntary renewals. Pricing remains firm for the period of April 1, 2027, through September 30, 2029. The district reserves the right to extend the intent to purchase for an additional annual term through September 30, 2030. The applicant will reserve the right to extend or abbreviate the contract period if such extension or abbreviation is necessary to make the Contract term coincide with an E- Rate "program year" or an extended service end date for an E-Rate program year pursuant to a "service delivery deadline extension," as those terms are defined by the Federal Communications Commission (FCC) and/or the Universal Service Administrative Company (USAC).

    The applicant will reserve the right to extend or abbreviate the contract period if such extension or abbreviation is necessary to make the Contract term coincide with an E- Rate "program year". The contract expiration for non-recurring services and software/license purchases that may be classified as recurring by USAC shall be automatically extended to align with SLD authorized extensions due to late funding and changes in products and/or services approved on or after March 1st or upon certification of a FCC Form 500 Service Delivery Deadline Extension Request as those terms are defined by the Federal Communications Commission (FCC) and/or the Universal Service

The implementation of any associated contracts resulting from this competitive proposal process will be dependent on the applicant's issuance of a written Notice to Proceed.
