Gardner Edgerton USD 231

Creekside Elementary Network Request for Proposals

Issued 10/30/2026 | FCC Form 470 #270003024

Gardner Edgerton USD 231 requests proposals for Cisco equipment identified below or functionally equivalent solutions to support the network at Creekside Elementary School, including switching and wireless access points.

Equipment and Technical Requirements

- Core switch devices must support at least 25GBps link connectivity
- Core switch devices must be able to be stacked together or support a similar technology
- Security – Device code must ensure that the code running on hardware platforms is authentic, unmodified, and operating as intended i.e image signing, secure boot, Cisco
- Trust Anchor module (TAm), and runtime defenses
- Visibility Assurance – must support Hardware Flow Telemetry
- Security – must support Encrypted Traffic Analytics
- Must support data switch stacking technology with dedicated stacking ports with > or = to 480 Gbps
- Must support Graceful Insertion and Removal, NSF, SSO
- Programmability – Must support RestConf, NetConf

The makes/models and configurations below describe the capabilities requested. All functionally equivalent solutions will be reviewed and considered. Bidders proposing equivalent equipment must provide a detailed equivalency comparison. Quantities shown are the quantities requested; separately identify optional or substituted components.

Pricing and Implementation

Provide an itemized proposal for each listed device, optic, accessory, license, and any proposed equivalent. Specify license durations, renewal requirements, cloud management dependencies, lead times, installation/configuration costs (if offered), support and warranty coverage, and projected availability for the FY2027 project. State all exclusions or substitutions. The district will coordinate purchase and implementation timing after award and applicable E-Rate approvals.

Questions and Proposal Submission

Submit all questions and bids electronically to the following addresses:

- Andy Price pricea@usd231.com
- Eddie Holt eddieholt@eratesolutions.com

All questions due by 11/13/2026 3:00PM CST.

All Bids due by 11/30/2026 3:00PM CST.

Include “Gardner Edgerton USD 231 Creekside Elementary Network- Form 470 #270003024 in the subject line of all communications.

The district may post responses to substantive questions of the FCC Form 470 materials so all bidders receive the same information.

Bid Content and E-Rate Requirements

Proposals must identify the proposed solution, manufacturer and part numbers or detailed functional-equivalence documentation, quantities, delivery and implementation schedule, warranties and support, and itemized recurring and nonrecurring charges as applicable. Disclose freight, taxes, installation, construction, licensing, subscriptions, and all other costs. Identify and separately price every E-Rate-ineligible component or cost, including cost allocations for bundled offerings. E-Rate eligibility of all products must be provided.

Proposals for functionally equivalent makes/models will be considered. Where an equivalent is offered, provide documentation demonstrating compliance with all applicable performance, interoperability, security, management, and other stated specifications. Clearly describe any deviation or exception. Alternative bids are welcome when separately priced and fully described.

All bidders must comply with applicable E-Rate program rules and maintain an active Service Provider Identification Number (SPIN). State the SPIN in the proposal and identify any subcontractor or other entity furnishing equipment or services. The selected provider must complete applicable annual program certifications.

Any SPAM or Robo Bids that do not explicitly quote the indicated products or services will be disqualified.

All cost proposals must reflect the LCP (Lowest Corresponding Price), GSA pricing, and any available governmental unit discounts.

By submitting a bid, the vendor certifies that equipment and services are compliant with FCC Order 19-121 and applicable prohibitions on covered equipment and services, including equipment or services provided or manufactured by Huawei, ZTE, or another designated covered company.

All bidders must agree to provide SPI billing (FCC Form 474, Service Provider Invoice) for eligible E-Rate-funded charges, as applicable.

The district reserves the right to evaluate compliant proposals under applicable E-Rate competitive bidding requirements, with price of eligible products and services as the primary factor.
