State and Local Procurement Restrictions

E-Rate Service Category Clarification IC, BMIC, and MIBS

The District has included Internal Connections (IC), Basic Maintenance of Internal Connections (BMIC), and Managed Internal Broadband Services (MIBS) on FCC Form 470 solely for E-Rate eligibility and service classification purposes. The inclusion of these categories is intended to accommodate applicable manufacturer licensing, support, maintenance, and related components that may be classified differently under FCC and USAC E-Rate eligibility guidelines.

The District is not separately soliciting bids for managed network services, ongoing network monitoring or administration, or standalone basic maintenance agreements. The scope of this procurement is limited to the specific equipment, licensing, support, and associated services expressly identified in the Form 470 narrative and accompanying bid specifications.

Vendors must clearly identify the applicable E-Rate service category for each proposed component and separately itemize any E-Rate-ineligible products or services. The inclusion of BMIC and MIBS does not expand the scope of the procurement or constitute a separate request for proposals under those categories.
