Request for Proposal

Category 2 – Wireless Access Points

November 4, 2026

Ritenour School District is seeking bids for new wireless access points to replace about a third of its wireless access points (APs) as part of the district's existing wireless network.

Proposed solutions for APs need to address the following capabilities & requirements:

- Equipment or service provider vendor must be E-Rate qualified.
- The district will utilize the Service Provider Invoicing (SPI) method for its E-Rate discount which is currently at 80%.
- The district anticipates purchasing 200 wireless APs to replace existing ones that are end-of-life and support for instructional spaces.
- The district will replace 200 of its Cisco 2802i model APs.
- All 200 wireless APs purchased by the district must have the full capabilities and functionality to be integrated into the existing Cisco wireless infrastructure and supported by Cisco Catalyst CW900M wireless controllers.
- The Cisco 9136l wireless AP is the model (or compatible equivalent alternative) the district seeks to receive bids for a quantity of 200 utilizing E-Rate SPI discount funding.

Bids should be delivered to:
Dr. Rich Wilson
Director of Technology
Ritenour School District
2420 Woodson Rd.
St. Louis, MO 63114-5499
Attention: Category 2 - Wireless AP Bid

Bid Due Date:
December 3, 2026
