REQUEST FOR PROPOSALS (RFP)
CATEGORY ONE – INTERNET ACCESS
E-RATE FUNDING YEAR 2027

FCC FORM 470#: 270003740
APPLICANT NAME: CAMPBELLSPORT SCHOOL DISTRICT
BILLED ENTITY NUMBER: 132716

PURPOSE

The Applicant identified above hereby solicits competitive proposals from qualified Service Providers for the provision of E-Rate eligible Category One Internet Access services pursuant to the Schools and Libraries Universal Service Support Mechanism (E-Rate Program) as administered by the Universal Service Administrative Company (USAC) under authority of the Federal Communications Commission (FCC).

This procurement is subject to all applicable federal, state, and local procurement laws, FCC regulations, USAC program requirements, and any Applicant-specific policies.

Service Providers responding to this solicitation are solely responsible for ensuring full compliance with all applicable E-Rate competitive bidding, pricing, equipment eligibility, invoicing, and record retention requirements.

RFP TIMELINE

- **RFP Issued:** 11/10/2026
- **Deadline for Submission of Questions:** 11/18/2026
- **Responses to Questions / Addenda Issued By:** 11/20/2026
- **Proposal Submission Deadline:** 12/18/2026

Mandatory Compliance Notice:
In accordance with FCC rules, the proposal submission deadline shall allow for no fewer than twenty-eight (28) full days from the posting date of the associated FCC Form 470 and/or RFP, whichever is later.

RFP CONTACTS

All communications regarding this procurement must be directed exclusively to all designated contacts below:

- Sherman Gengler: sgengler@csd.k12.wi.us
- Skylands E-Rate Operations Team: bids@e-rate.org

COMMUNICATION AND PROCUREMENT INTEGRITY REQUIREMENTS

Authorized Communications:

- All questions, requests for clarification, and correspondence must be submitted in writing via email to **all** designated RFP contacts.
- Responses to material questions shall be issued through formal written addenda, which will be posted to the associated FCC Form 470 in EPC. If no questions are received as outlined in the RFP timeline, an addendum will not be posted for question-and-answer purposes.
- Verbal communications, informal discussions, and individual interpretations will not and shall not be binding.

Strict Prohibition on Unauthorized Contact:
Offerors are expressly prohibited from contacting any employee, representative, or agent of the Applicant not expressly authorized in this RFP. This includes, but is not limited to, Board members, Superintendents/Directors, IT personnel not listed herein, Procurement staff not listed herein, Consultants other than designated contacts.

Violation of this restriction will result in immediate disqualification.
This restriction does not apply to routine communications with an incumbent Service Provider concerning the administration of existing services (e.g., billing, maintenance, or trouble reporting), provided such communications do not address this procurement.

Duty to Monitor:
Offerors bear sole responsibility for monitoring the following on a regular basis:

- FCC Form 470 postings
- EPC updates
- Applicant communications
- Addenda
- Procurement portals, where applicable

Failure to monitor updates shall not relieve Offerors of compliance obligations.

PROPOSAL SUBMISSION REQUIREMENTS

Submission Instructions:

- Proposals **must** be submitted electronically to **all** listed RFP contacts.
- Late submissions shall be automatically disqualified.
- Applicant receipt timestamp shall control submission timeliness.
- Partial submissions may be rejected unless expressly permitted.
  Offerors are solely responsible for ensuring timely and complete delivery of proposals, including mitigation of technical failures or transmission delays.

Mandatory Proposal Components:

Each proposal must include, at minimum:

- Applicant name
- BEN
- FCC Form 470 number
- Service Provider Name
- Service Provider Identification Number (SPIN)
- Service Provider contact information
- Terms and conditions
- Completed pricing worksheet

Each proposal is encouraged to include the following. Failure to provide the following may adversely affect the scoring of your proposal.

- SPI invoicing capability certification
- E-Rate compliance certifications (broad compliance with FCC rules, USAC procedures, LCP, Gift Rules, Record Retention, etc.)
- Supply chain compliance certification (ensures compliance with FCC Order 19-121 and 47 C.F.R. §§ 54.9–54.10)
- Debarment/suspension certification (confirms vendor is not FCC barred, Federal debarred, SAM excluded, etc.)
- FCC Red Light Rule Compliance Certification. Offerors should certify that they are not currently subject to the FCC's Red Light Rule (47 C.F.R. § 1.1910), are in good standing with all FCC financial obligations, and are not delinquent on any debts owed to the FCC.
- Conflict of interest disclosure (vendor disclosure statement that ensures no unfair bidding advantage or relationships have improperly influenced the procurement process, proposal development, or bid submission).
    - Failure to fully disclose relevant conflicts may result in disqualification, contract termination, or referral to appropriate regulatory authorities.

Proposal Validity:
Proposals must remain valid for a minimum of 180 days from submission unless otherwise stated.

Proposal Exceptions / Deviations:
By submitting a proposal, the Offeror acknowledges that it has reviewed and agrees to comply with the terms, conditions, and requirements set forth in this RFP unless specific exceptions are clearly identified in the proposal submission.

Any proposed exceptions, deviations, or alternative terms must be explicitly disclosed in writing as part of the proposal response.

The Applicant reserves the sole right to determine the acceptability of any exceptions, may require withdrawal of unacceptable exceptions, and may consider exceptions or deviations in proposal evaluation and scoring.

Failure to clearly disclose exceptions may result in proposal disqualification or rejection.

PRE-BID MEETING / SITE VISIT

No pre-bid conference or site visit will be conducted.

SCOPE OF WORK: DEDICATED INTERNET ACCESS

The Applicant requires a minimum of **2 Gbps** of dedicated, fully managed, symmetrical Internet Access service delivered to the location(s) identified below. The proposed service shall provide reliable, high-speed connectivity to the public Internet and include an enforceable Service Level Agreement (SLA) consistent with the requirements outlined in this RFP.

The proposed solution shall include all equipment, facilities, and services necessary to provide a fully operational Internet Access solution. If customer premises equipment (CPE), including a managed router, is required for the proper operation of the proposed service, the Offeror shall include such equipment and all associated licensing, maintenance, monitoring, and support in its proposal. Offerors should also identify the number of IP blocks they offer with their solution, including ranges. Offerors are encouraged to identify any IPv6 capabilities included with the proposed service.

The Applicant's preference is for Leased Lit Fiber service or a functionally equivalent technology that provides comparable reliability, scalability, and overall network performance. Offerors proposing an alternative technology must clearly demonstrate that the proposed solution meets or exceeds the performance characteristics of leased lit fiber.

The proposed Internet Access service should include, as applicable:

- Dedicated, symmetrical Internet bandwidth.
- Full-time access to the public Internet without intentional oversubscription of the Applicant's committed bandwidth.
- Ethernet handoff (RJ-45 or fiber optic), as appropriate for the proposed solution.
- Fully managed Internet Access service, including proactive monitoring and fault management by the Service Provider.
- A managed router, if required for service functionality.
- Twenty-four (24) hours per day, seven (7) days per week network monitoring and technical support through the Service Provider's Network Operations Center (NOC).
- Installation, configuration, testing, and activation of all services necessary to place the circuit into production.
- Compliance with all applicable FCC and USAC E-Rate requirements.

- Separate identification and pricing of any E-Rate ineligible components (e.g., content filtering, advanced or next-generation firewall features, DDoS mitigation, or other security services beyond a basic firewall included with the Internet service).

Dedicated Internet Access service is requested for the following location(s):

- **Campbellsport High School, 114 W. Sheboygan Street, Campbellsport, WI 53010-2791**

Prospective bidders shall provide pricing for the following bandwidth options:

- **2 Gbps dedicated, symmetrical Internet Access**
- **3 Gbps dedicated, symmetrical Internet Access**
- **4 Gbps dedicated, symmetrical Internet Access**
- **5 Gbps dedicated, symmetrical Internet Access**
- **10 Gbps dedicated, symmetrical Internet Access**

The Applicant reserves the right to evaluate proposals offering higher bandwidths, additional service options, or functionally equivalent solutions when determined to be in the Applicant's best interest and consistent with applicable FCC and USAC competitive bidding requirements.

Prospective bidders shall provide pricing for the following contract terms:

- **Twelve (12) months**
- **Thirty-six (36) months**
- **Sixty (60) months**

In addition to the initial contract term(s), all proposals shall include provisions for up to two (2) optional one-year (1+1) renewal periods, exercisable subject to mutual written agreement between the Applicant and the selected Service Provider.

Offerors shall clearly identify all Monthly Recurring Charges (MRC), Non-Recurring Charges (NRC), and any Special Construction Charges associated with each proposed contract term. Pricing shall remain firm for the duration of the initial contract term and any exercised renewal period(s), except as otherwise expressly permitted within the resulting agreement.

The Applicant reserves the exclusive right to determine the contract term that provides the best overall value and most cost-effective solution consistent with the Applicant's operational needs and applicable FCC and USAC E-Rate program requirements.

SERVICE LEVEL AGREEMENT (SLA) REQUIREMENTS

The Applicant requires each Offeror to provide a detailed description of the proposed Service Level Agreement (SLA) applicable to the requested Internet Access service. The information provided will be used by the Applicant to evaluate the overall quality, reliability,

and support capabilities of the proposed service. Failure to provide the requested information may adversely affect the evaluation of the proposal.

At a minimum, each proposal shall include the following:

- Guaranteed network availability (uptime), including the methodology used to calculate and measure availability.
- Guaranteed average network latency applicable to the proposed service.
- Guaranteed packet loss percentage.
- Guaranteed network jitter.
- Guaranteed Mean Time to Repair (MTTR) for service-affecting outages.
- Guaranteed initial response time for reported service interruptions.
- A description of the vendor's escalation procedures, including the process for escalating unresolved service issues.
- The hours of operation for the vendor's Network Operations Center (NOC), including after-hours support availability.
- A description of scheduled maintenance policies, including customer notification procedures and standard maintenance windows.
- A description of any service credits or other contractual remedies available in the event the vendor fails to meet the guaranteed service levels.
- A description of the methods available for reporting service outages, including telephone, email, and online support options.
- Information regarding any customer portal or network management tools available for monitoring service status, submitting support requests, and reviewing outage history or performance metrics.
- A description of any performance reporting available to the Applicant, including bandwidth utilization reports, SLA performance reports, or other network performance metrics.

The Applicant reserves the right to consider the quality, enforceability, and comprehensiveness of the proposed Service Level Agreement when evaluating proposals.

PRICING REQUIREMENTS

All proposals must include:

- Separate eligible/ineligible cost allocation
- MRC (Monthly Recurring Charges)
- NRC (Non-Recurring Charges)
- Special Construction Charges (SPC)
- Installation labor
- Taxes and fees

Pricing Worksheet: Offerors shall complete and submit Attachment A, FY2027 Internet Access Price Workbook, providing MRC, NRC, and SPC for every bandwidth tier and

contract term listed in the Scope of Work. Pricing submitted in any other format will not substitute for the completed workbook.

Pricing Integrity:

- Pricing must remain firm for full contract duration.
- No unilateral price escalations permitted.
- Promotional pricing exceeding 90 days must be reflected where applicable.
- Pricing must comply with Lowest Corresponding Price rules.

Applicant retains sole discretion over acceptance.

CONTRACT CONDITIONS

- Applicant intends to enter into a legally binding written agreement.
- Annual appropriation/non-appropriation provisions may apply.
- Written amendments are mandatory for all changes.
- FCC service delivery deadline extensions may be incorporated where applicable.
- Applicant is not obligated to purchase full quoted quantities.
- Contract award may be whole or partial.
- Services and associated payment obligations are contingent upon approval of E-Rate funding. If E-Rate funding is denied or reduced, the Applicant may terminate or modify the affected services without penalty.

Respondents to this RFP should provide pricing options for the contract terms identified in the Scope of Work. The Applicant reserves the exclusive right to determine the final contract duration. All contracts, regardless of length, must include an option for a voluntary renewal period of up to two (2) additional years (structured as 1+1), subject to mutual written agreement by both parties.

Pricing for special construction, Non-Recurring Charges (NRC), and Monthly Recurring Charges (MRC) must remain fixed for the entire contract term. Service providers offering equipment subject to potential price increases due to new U.S. government tariffs on imports are encouraged to (a) clearly identify such equipment in their proposals, and (b) propose a suitable methodology to limit price adjustments over the contract lifecycle. Within the constraints of the contract, service cost-effectiveness may be reviewed at any time during the agreement, including renewal periods.

All contracts must include a clause allowing the Applicant to terminate circuits early, without penalty, if a location is closed. Furthermore, if the Applicant opens a new location, the contract must allow for that site to be added at the existing MRC rate for the remainder of the contract term, with the Applicant responsible for any associated one-time charges to incorporate the new site into the network.

Contracts shall permit bandwidth increases up to the maximum commercially available bandwidth offered by the selected Service Provider at the service location, at pricing no greater than the Offeror's proposed pricing for the applicable bandwidth tier. Such bandwidth adjustments, including during any renewal periods, shall be treated as amendments to the existing agreement rather than new agreements, and will not extend the contract term.

BEST AND FINAL OFFER (BAFO)
The Applicant reserves the right, at its sole discretion, to request Best and Final Offers (BAFO) from all responsive and responsible Offerors.

If BAFO is utilized:

- All eligible Offerors shall receive equal notice
- Uniform submission requirements shall apply
- Identical deadlines shall be enforced
- BAFO requests shall preserve full FCC competitive bidding compliance

Nothing herein obligates Applicant to request BAFO.

EVALUATION CRITERIA
In full compliance with FCC requirements, the cost of E-Rate eligible products and services shall be the single highest weighted evaluation factor.

Mandatory Review Basis: Under Wisconsin Administrative Code Adm 10.08 and Adm 10.10, the Applicant's evaluation committee is required to review all proposals submitted in response to this RFP using as a basis the evaluation criteria included in this RFP. Proposals will be evaluated using a predetermined method to determine which Offeror best meets the needs of the Applicant. No criteria other than those identified in this RFP will be used to evaluate proposals.

Evaluation Factors: Price of E-Rate eligible products and services is the primary factor and will carry the highest weight. All other factors listed below will be considered and, individually and in the aggregate, will carry less weight than price. The evaluation committee will consider the following:

- **Price of E-Rate Eligible Services (Primary Factor).** The total cost of E-Rate eligible services for each bandwidth tier and contract term, including Monthly Recurring Charges (MRC), Non-Recurring Charges (NRC), and Special Construction Charges (SPC), calculated over the full contract term. Price will be evaluated on E-Rate eligible costs; any ineligible costs must be separately identified and will not be used to lower an Offeror's eligible price score.
- **Technical Solution / Meets Needs.** The extent to which the proposed solution meets or exceeds the requirements in the Scope of Work, including dedicated

symmetrical bandwidth, delivery technology (leased lit fiber or a functionally equivalent technology), scalability from 2 Gbps up to 10 Gbps without major reconstruction, physical path and network architecture, Ethernet handoff and any required managed CPE, static IP addressing, and IPv6 capability.

- **Impact to Operations.** The expected effect of the proposed solution on the Applicant's daily instructional and administrative operations, including the installation and cutover plan, anticipated service interruption during transition, ability to have service operational by July 1, 2027, construction or permitting risk, demands on district staff time, and compatibility with the Applicant's existing network equipment.
- **Service Level Agreement, Reliability, and Support.** The strength and enforceability of the proposed SLA, including guaranteed availability, latency, packet loss, jitter, Mean Time to Repair, response times, escalation procedures, 24x7x365 NOC support, service credits, customer portal and reporting tools, and local or regional field support capability.
- **Previous Experience with the Offeror.** The Applicant's documented past experience with the Offeror, where applicable, including service quality and reliability, responsiveness to trouble tickets, billing accuracy, and cooperation with E-Rate processes. Offerors with no prior relationship with the Applicant will not be scored negatively on this factor.
- **Offeror Qualifications and References.** The Offeror's experience delivering comparable dedicated Internet Access services to K-12 schools and other E-Rate applicants, the qualifications of the assigned account and support team, and references from comparable customers.
- **E-Rate Program Compliance and Invoicing.** Demonstrated E-Rate experience and compliance, including an active SPIN in good standing, willingness and ability to perform Service Provider Invoicing (SPI), timely filing of FCC Form 473, and inclusion of the certifications requested in this RFP.
- **Responsiveness and Contract Terms.** The completeness and clarity of the proposal, the number and nature of any exceptions or deviations taken to this RFP, and the flexibility of proposed contract terms (e.g., bandwidth upgrades, renewal options, and termination provisions) as required herein.

Oral Presentations: Oral presentations by Offerors will not be part of the evaluation process. Proposals will be evaluated solely on the written submissions. The Applicant may request written clarification of a proposal; any such clarification will be requested from Offerors in a fair and equal manner and may not be used to materially change an Offeror's proposal or pricing.

Award: The Applicant intends to award to the responsive and responsible Offeror whose proposal is determined to be the most cost-effective, with price of the eligible products and services as the primary factor, consistent with 47 C.F.R. § 54.503 and 47 C.F.R. § 54.511(a).

Applicant reserves sole discretion in proposal evaluation consistent with applicable law.

DISQUALIFICATION FACTORS

Proposals will be disqualified for the following reasons:

- Late submission
- Unauthorized communications
- Does not have a SPIN at the time of proposal submission
- Failure to meet specifications
- Failure to respond to all requested pricing
- Generic or non-responsive pricing
- Submission of a response generated by Artificial Intelligence that contains materially incomplete, inaccurate, or misleading information and/or is not tailored specifically to the Applicant and/or needs of the RFP.
- Inclusion of generic or overly broad pricing lists that do not reflect the specific requirements of this RFP.
- Failure to comply with procurement instructions
- Failure to provide required pricing worksheet (Attachment A, FY2027 Internet Access Price Workbook)

INVOICING REQUIREMENTS

The Applicant reserves the sole right to select the invoicing method for the requested products and/or services. By submitting a proposal, the offeror acknowledges and accepts the Applicant's right to choose between the Billed Entity Applicant Reimbursement (BEAR) method or the Service Provider Invoicing (SPI) method.

BEAR Method (FCC Form 472): If the BEAR method is selected, the offeror shall invoice the Applicant for the full cost of the eligible products and/or services. The Applicant will then seek reimbursement for the discounted portion directly from USAC using FCC Form 472.

SPI Method (FCC Form 474): If the SPI method is selected, the Applicant's E-rate discount will be reflected on the FCC Form 471 and confirmed in the Funding Commitment Decision Letter (FCDL), if issued. The offeror shall invoice USAC directly for the discounted portion using FCC Form 474 and agrees not to invoice the Applicant for any amount covered by the E-rate discount.

Vendor Obligations:

- Timely invoicing cooperation
- Documentation support
- USAC compliance
- Filing of FCC Form 473 (Service Provider Annual Certification) for the applicable funding year

- Submission of FCC Form 474 (SPI) invoices within USAC invoicing deadlines, if the SPI method is selected
- No disruption due to billing disputes

ADMINISTRATIVE, PROCUREMENT, AND E-RATE COMPLIANCE PROVISIONS

- Procurement Rights and Reservation of Authority
    - The Applicant reserves the right, at its sole discretion, to award contracts in whole, in part, to multiple vendors, or not at all, based on the Applicant's needs, available funding, and the requirements established in this solicitation.
    - The Applicant further reserves the right to reject any or all proposals, waive informalities or minor irregularities, request clarifications, and make award decisions determined to be in the best interest of the Applicant and consistent with all applicable E-Rate and public procurement requirements.
    - In the event of conflict between this RFP and applicable state/local procurement laws, applicable law shall control.
    - The Applicant may, at its sole discretion, extend proposal deadlines, amend procurement schedules, or cancel this solicitation in whole or in part if deemed necessary or advantageous.
- Proposal Submission, Public Disclosure, and Confidentiality
    - Submission of a proposal does not create any binding contractual obligation for the Applicant unless and until a formal written agreement and/or authorized purchase order has been fully executed.
    - Following contract award and execution, proposal documents may be subject to public inspection in accordance with applicable public records laws.
    - Offerors may designate specific portions of their proposals as "Proprietary" or "Confidential," provided such information is clearly identified and readily separable from non-confidential content. The Applicant will make reasonable efforts to protect properly designated confidential information to the extent permitted by law.
    - Pricing, service costs, and other cost-related information shall not be considered proprietary or confidential and may be publicly disclosed.
- Contract Formation and Financial Protections
    - The Applicant reserves the right to reevaluate the cost-effectiveness of contracted services throughout the contract term, consistent with contractual rights and E-Rate program requirements.
    - Offerors proposing products potentially subject to price fluctuations due to tariffs, import restrictions, or other governmental actions must clearly disclose affected products and provide a defined methodology for controlling or limiting future pricing adjustments.
- Conflict of Interest and Competitive Integrity

    - By submitting a proposal, each Offeror certifies that no actual or potential conflict of interest exists that would compromise the fairness of this procurement or create an unfair competitive advantage.
    - The Applicant will conduct this procurement in a fair, open, and competitive manner consistent with FCC E-Rate rules. No vendor, including incumbents, shall receive preferential treatment or improper advantage.
    - Any proposal determined to involve collusion, undisclosed conflicts, or improper competitive influence will be disqualified.
- E-Rate Compliance Requirements
    - This procurement is subject to all applicable Federal Communications Commission (FCC), Universal Service Administrative Company (USAC), and E-Rate program rules.
    - All participating vendors must comply with all E-Rate requirements, including but not limited to:
        - Service Provider Identification Number (SPIN) eligibility
        - FCC Red Light Rule compliance
        - Lowest Corresponding Price requirements
        - Debarment and suspension certifications
        - Gift rule compliance
        - Eligible services compliance
        - SPI invoicing capability, if required
        - Record retention obligations
    - Failure to maintain E-Rate compliance may result in proposal disqualification or contract termination.
- Supply Chain Compliance Certification
    - By submitting a proposal, the Offeror certifies compliance with FCC Order 19-121, 47 C.F.R. §§ 54.9–54.10, the Secure and Trusted Communications Networks Act, and all related federal supply chain security requirements.
    - Offerors further certify that proposed equipment and services do not include any equipment, services, or components from entities identified on the FCC's Covered List, including but not limited to Huawei Technologies Company, ZTE Corporation, China Mobile International USA Inc., China Telecom (Americas) Corp., China Unicom (Americas) Operations Ltd., Pacific Networks Corp. and ComNet (USA) LLC, or any successor-designated covered entities.
    - The Offeror acknowledges that non-compliance may result in proposal disqualification, contract cancellation, or other remedies as permitted by law.
- Installation Completion Deadline
    - All products and services must be delivered and installed in accordance with applicable E-Rate service delivery deadlines unless officially extended by FCC or USAC.
    - Recurring services shall be installed, tested, and operational on or before July 1, 2027, or such later date as the Applicant may approve in writing. Non-

recurring services, including any special construction, shall be completed by the applicable E-Rate service delivery deadline.

RECORD RETENTION / AUDIT REQUIREMENTS

Pursuant to 47 C.F.R. § 54.516, Service Providers are required to adhere to the following obligations regarding document retention, records production, and audits.

- Service Providers must retain all documents related to the delivery of discounted telecommunications and other supported services for at least ten (10) years after the later of the last day of the applicable funding year or the service delivery deadline for the funding request. Additionally, any records that demonstrate compliance with statutory or regulatory requirements under the schools and libraries support mechanism must also be retained. The ten-year retention requirement was adopted in the FCC's E-Rate Modernization Order (FCC 14-99).
- Upon request, Service Providers shall produce relevant records to any authorized representative, including auditors appointed by state education departments, the program Administrator, the Federal Communications Commission (FCC), or any local, state, or federal agency with jurisdiction over the matter.
- Service Providers shall be subject to audits and investigations to verify compliance with all statutory and regulatory requirements applicable to the schools and libraries universal service support program. This includes compliance concerning the procurement, delivery, and usage of services and products.
- Service Providers may protect confidential information except where disclosure is required by FCC, USAC, governmental auditors, or applicable law.
- Service Providers are responsible for ensuring that any subcontractors they engage also comply fully with the FCC’s requirements related to document retention, records production, and audits.

LOWEST CORRESPONDING PRICE

In accordance with 47 C.F.R. § 54.511(b), Service Providers are prohibited from submitting bids or charging schools, libraries, or consortia prices that exceed the Lowest Corresponding Price (LCP) for supported services. Exceptions apply only if the Federal Communications Commission (FCC) for interstate services, or the relevant state commission for intrastate services, determines that the LCP is not compensatory. Additionally, promotional rates offered by a Service Provider for periods longer than 90 days must be factored into the comparable rates used to establish the LCP.
All proposals submitted in response to this RFP and the associated FCC Form 470 must comply with the E-rate program requirement to offer the Lowest Corresponding Price (LCP). For further details, please refer to the official USAC guidance regarding Lowest Corresponding Price requirements.

COST OF PROPOSALS

All costs and expenses associated with the preparation and submission of proposals in response to this RFP shall be borne exclusively by the vendor.

******* END OF RFP *******
