SUMMARY

The Roseville City School District ("RCSD" or "District") issues this Request for Proposal (RFP) to solicit qualified vendors to provide E-Rate Eligible **Basic Maintenance** to modernize and/or increase coverage in areas known to lack adequate coverage across our 22 Schools.

The resulting agreement will support the District's instructional and operational mission and will be structured to comply with all requirements of the **Federal Communications Commission (FCC) Schools and Libraries Program (E-Rate)** administered by the **Universal Service Administrative Company (USAC)**.

Selection will be based on **E-Rate compliant cost-effectiveness**, of which **price is the most heavily weighted factor**, but not the sole determinant. The District reserves the right to make no award or to negotiate final award terms consistent with E-Rate requirements. All award decisions will be documented with sufficient rationale and contemporaneous records to satisfy E-Rate audit and review obligations.

IMPORTANT DOCUMENTS IN THIS RFP

The following documents are included as part of this Request for Proposal (RFP). Any addenda, clarifications, or modifications issued after the initial posting will be made available on the District's website at www.rcsdk8.org under **"Contracts and Bids"** (found in the "Menu" section).

BACKGROUND

The District continually evaluates its wireless network to support its instructional goals across the district. As part of this process, the District identifies areas that have failed to meet District or industry standards and might require improvement, expansion, upgrading and repairing of existing infrastructure. This work is designed to accommodate the ongoing growth of the District's network, ensuring it effectively supports students and staff.

DISTRICT OVERALL INFRASTRUCTURE GOALS

SCOPE OF WORK

The Roseville City School District ("District") is requesting proposals from qualified bidders for **Basic Maintenance of Internal Connections (BMIC)** on an as-needed, unit-price basis. This contract supports the District’s E-Rate eligible cabling and network infrastructure for **Funding Year FY2027**.

All services provided under this contract must comply with current Universal Service Administrative Company (USAC) E-Rate program rules, eligible services lists, and California public bidding regulations.

Basic Maintenance Contract is a unit-price contract for the as-needed basic maintenance of internal connections.

To establish a standardized baseline for proposal evaluation and E-Rate Form 471 filing, the District will evaluate all bids using a fixed set of estimated labor hours and material quantities to calculate an initial Not-to-Exceed (NTE) contract value. Please note that these evaluation figures serve solely as a benchmark for scoring; the final contract amount may be adjusted higher or lower depending on actual District needs and allocated budget, and does not guarantee any minimum volume of work.

All labor should be priced at prevailing rates with work to be started after 3:00 p.m. Please note in your quote if other working hours are at a different rate.

ADDITIONAL INFORMATION

The intent of this RFP is to define specifications for the equipment and requirements to upgrade/or installation of a complete system. All plans proposed should include detailed billing and include hardware, installation, shipping and taxes.

School District Information: All services may be rendered at any designated District site on an as needed basis. Please see **Appendix A** for a non-exclusive list of sites.

All vendors are encouraged to respond and are allowed to submit a total of one completed proposal. The District has the right to completely eliminate work within this RFP depending on pricing and before any work is agreed upon to start.

VENDOR / SERVICE PROVIDER ACKNOWLEDGEMENTS

a. The Service Provider acknowledges that no change in the products and/or services specified in this document will be allowed without prior written approval from the district and a USAC service substitution approval with the exception of a Global Service Substitutions.

b. The Service Provider acknowledges that its offer is considered to be the lowest corresponding price pursuant to § 54.511(b). Should it not be the lowest corresponding price, the service provider must disclose the conditions leading to the applicant being charged in excess of the lowest corresponding price.

c. This offer is in full compliance with USAC's Free Services Advisory http://www.usac.org/sl/applicants/step02/free-services-advisory.aspx. There are no free services offered that would predicate an artificial discount and preclude the applicant from paying its proportionate non-discounted share of costs. The service provider agrees to provide substantiating documentation to support this assertion should the applicant, USAC, or the FCC request it.

STARTING SERVICES / ADVANCE INSTALLATION

The annual E-rate Funding Year begins on July 1 and expires on June 30 of each calendar year. Regardless of the contract "effective date", E-rate eligible goods and/or services requested in this RFP shall be delivered no earlier than the start of the funding year as outlined in the RFP. If Category 1 services (Telecommunication Services and Internet access) begin on or shortly after July 1 of a funding year, the service provider, in some cases, may need to undertake some construction and installation work prior to the beginning of that funding year. Within the limitations indicated below, the infrastructure costs of a service provider can be deemed to be delivered at the same time that the associated Category 1 services begin. That is, if services begin on July 1, then the delivery of service provider infrastructure necessary for those services can be considered as also delivered on July 1.

EARLY FUNDING CONDITIONS

Category 1
There are four conditions that must be met in order for USAC to provide support in a funding year for Category 1 infrastructure costs incurred prior to that funding year.

- Initiation of installation cannot take place before selection of the service provider pursuant to a posted Form 470 and in any event no earlier than six months prior to

July 1 of the funding year.
- The Category 1 service must depend on the installation of the infrastructure.
- The underlying Category 1 service cannot have a service start date prior to July 1 of the funding year.
- No invoices can be submitted to USAC for reimbursement prior to July 1 of the funding year.

For more information, please refer to the FCC Order involving the Nassau County Board of Cooperative Educational Services (DA 02-3365 , released December 6, 2002). This FCC decision only applies to Priority 1 services (telecommunications services and Internet access).

The complete text can be found at the following URL:
https://www.usac.org/e-rate/applicant-process/starting-services/advance-installation/

Additionally, if the service qualifies for California Teleconnect Funds then the service provider will invoice the California PUC.

Category 2
There is one condition that allows USAC to provide support in a funding year for Category 2 installation costs incurred prior to that funding year.

- We also amend our rules for category two non-recurring services to permit applicants to seek support for category two eligible services purchased on or after April 1, three months prior to the start of funding year on July 1. This will provide schools with the flexibility to purchase equipment in preparation for the summer recess and provide the maximum amount of time during the summer to install these critical networks.

For more information, please refer to the FCC Report and Order and Further Notice of Proposed Rulemaking (FCC 14-99 , released July 23, 2014). This FCC decision only applies to Category 2 services (Internal Connections).

INVOICING

a. The Service Provider agrees to bill and receive a portion of the payment for the provisions of goods and services described herein directly from USAC via the Form 474 Service Provider Invoice (SPI). The District will only be responsible for paying its non-discounted share of costs and does not intend to use the BEAR process (Form 472). The maximum percentage the District will be liable for is the pre-discount amount minus the funded amount as shown on the FCC Form 471 Block 5 and any identified ineligible costs. Upon the successful receipt or posting of a Funding Commitment Decision Letter from the SLD and submission and certification of Form 486, the District shall pay only the discounted amount beginning with the billing cycle immediately following said approval. Alternatively, should the District decide that it is in the best interest of the District to file a Form 472, the District will inform the Service Provider of its intent.

b. All Service Provider invoicing to USAC must be completed within 120 days from the last day of service. Should the Service Provider fail to invoice USAC in a timely

manner, the District will only be responsible for paying its non-discounted share.

FCC/SLD AUDITABILITY

The E-rate program requires that all records be retained for at least ten (10) years from the last date of service provided on a particular funding request. Respondent hereby agrees to retain all books, records, and other documents relative to any Agreement resulting from this RFP for ten (10) years after final payment. The District, its authorized agents, and/or auditors reserves the right to perform or have performed an audit of the records of the Respondent and therefore shall have full access to and the right to examine any of said materials within a reasonable period of time during said period.

PROCUREMENT OF ADDITIONAL GOODS AND/OR SERVICES/COTERMINOUS EXPIRATION

During the term of any Agreement resulting from this RFP, the District may elect to procure additional or like goods and/or services offered by the Respondent. Such services shall be negotiated and obtained via an official amendment to this Agreement and approval by the District's Governing Board. All terms, conditions, warranties, obligations, maintenance and support of said goods or services shall have a coterminous expiration date with the original date of this Agreement. The District shall not enter into a separate Agreement for said goods or services. Respondents must state in their proposal that they acknowledge, accept and are in agreement with coterminous expiration conditions.

INTENTIONALLY LEFT BLANK

PROPOSAL EVALUATION

Each proposal will be reviewed prior to evaluation for completeness and adherence to the required format. A response will be considered complete if all requested sections are included, clearly labeled, and fully completed. Vendors may include additional recommendations pertaining to installation, maintenance, support, or design if such recommendations are relevant to the total solution and in the District's best interest.

Proposals will be evaluated using the following criteria (weights are approximate and not listed in order of importance unless noted):

Evaluation Factor	Weight
Total cost of ownership, including installation, recurring charges, scalability, upgradeability, and financial impact	**30%**
Transition, implementation approach, and proposed timelines	**20%**
Flexibility, scalability, manageability, and alignment to District technical strategy	**15%**
Vendor qualifications, including California K-12 references, experience with similar districts, and past performance	**15%**
Quality, clarity, and completeness of the RFP response and required documentation	**10%**
Locally Owned – Businesses located within a 50-mile radius of ZIP code 95678	**10%**

The District's evaluation and scoring will conform to E-Rate requirements for cost-effectiveness, with price being the highest-weighted factor.
