Narrative

The applicant is seeking bids and proposals for internet access with a baseline speed of 2-gigabits up to 10-gigabits over the life of a multi-year 3-year contract.

Upgrades in-place via service substitutions will be using committed pricing so please bid all speeds for a multi-year basis as stated above 500 megabits, expandable to 5 gigabits.

In this regard, a USAC service substitution will be used to upgrade the speed during the term of the agreement, at the discretion of the applicant, so all baseline and growth speeds requested herein must be stated within the bid/contract and pricing must be "frozen" for the term of the agreement.

The growth options should be in whatever increments the bidder has available.

A fiber-based solution is preferred.

A multi-year contract period, which allows for upgrades in speed over the term of the agreement via service substitution is being requested. We are seeking [1,2,or 3 year agreement bids) year contract options as well as month-month options.

Bids and questions must be submitted via email to Brent Travillion: brent.travillion@laurensaz.org-- To assure all vendors receive identical information, applicants will not discuss the Form 470 by phone. All communication will be via email to the address listed above. Bids and questions must be submitted via email to the address provided above.

All solutions should include installation and initial confi guration (if needed), a method to report service outages and receive basic technical support without additional service fees, and a service level agreement.

- The Applicant prefers Service Provider Invoicing and will score bids in accordance with the bidders agreement to abide by this preference.

Contracts are valid only if funding is awarded.
