Internet Access: ISP Service Only (No Transport) The applicant is seeking pricing for a minimum of 2 Gbps scalable to 5 Gbps bandwidth to Gonzales USD at 600 Elko St. Gonzales, CA 93926.
Important Information: Due to the way EPC has been created with the service category questions, please consider information drafted into quantities, fields, and units as an educated guess at a minimum for the issuance of this Form 470. All quantities are estimates as solutions proposed by service providers to meet the minimum specifications required may necessitate differing quantities.
All bid responses and inquiries must be submitted in writing to Carol Lagan at clagan@gonzales.k12.ca.us. Please include the application nickname and 470 number within the email subject line. Gonzales USD will NOT respond to phone inquiries. Quantities are estimates and may increase or decrease over the term of the awarded contract. Customer Requirements: Option for growth including, but not limited to, increases in bandwidth and/or additions of locations, or the move of locations as determined necessary by the DISTRICT. Options for removal of sites or lines due to closures or reorganization requirements as deemed necessary by The DISTRICT. Gonzales USD will require that there be no early termination charges or other penalties assessed in such situations that are determined to be outside the control of the DISTRICT. Bidders are to provide pricing for the requested bandwidth internals as stated above and are to provide an explanation of their service offering(s). Please provide rates on a single-year contract term, and three and five-year terms with options to extend (NOT TO EXCEED 5-YEARS).

State and Local Procurement Restrictions

An RFP is not part of this Form 470 Request. For questions regarding the services Gonzales Unified School District is requesting, please email Carol Lagan at clagan@gonzales.k12.ca.us and include the application nickname and 470 number within the email subject line. Gonzales USD will NOT respond to phone inquiries. The last day for questions to be submitted is December 1, 2026, at 3:00 p.m. PST. All bids must be addressed to Gonzales Unified School District, Attn: Carol Lagan, 600 Elko Street, Gonzales, CA 93926. The 28 days will conclude on December 14, 2026, at 3:00 p.m. PST. Applicant may consider multi-year contracts and/or contracts containing voluntary extension options. Any voluntary extension option must be stated in the awarded contract and must specify the number and duration of the available extensions. Automatic or evergreen renewal terms will not be accepted by the Applicant. For all Internet Access and WAN contracts, the original contract must include any available options to increase bandwidth or service speeds, together with the corresponding pricing or a clearly defined pricing methodology. Any subsequent amendment must remain within the scope and terms established by the original competitively bid contract and may not introduce new speeds, pricing, services, or other material terms that were not included in the original agreement.Applicant may also consider contracts with flexible terms that allow services, sites, users, quantities, and/or bandwidth to increase or decrease during the contract term, subject to applicable E-Rate program rules and state and local procurement requirements. Service Providers submitting proposals in response to this FCC Form 470 must comply with all applicable Federal Communications Commission (FCC) rules and orders, Universal Service Administrative Company (USAC) requirements, and applicable state and local procurement laws. Failure to comply may result in denial or recovery of E-Rate funding and other enforcement action. Service Providers must comply with the Lowest Corresponding Price (LCP) requirements in 47 CFR Sections 54.500 and 54.511(b). A Service Provider may not submit a bid for or charge the Applicant a price above the lowest price the Service Provider charges similarly situated non-residential customers for similar services, unless an applicable exception has been authorized. Service Providers must comply with USAC's Free Services Advisory. All discounts, promotional offers, rebates, credits, and free products or services associated with a proposal must be clearly disclosed and properly allocated. Their value must be deducted from the pre-discount price when required, and no arrangement may directly or indirectly reduce the Applicant's required non-discount share or shift the cost of ineligible or unrequested products or services to E-Rate-funded items.During the USAC Form 471 application process, the Applicant will select the applicable invoicing method in accordance with E-Rate program requirements. For Service Provider Invoicing (SPI), the Service Provider must timely submit invoices to USAC for the discounted share and must first bill the Applicant for the non-discounted share and any ineligible costs. For Billed Entity Applicant Reimbursement (BEAR), the Applicant must pay the Service Provider in full before seeking reimbursement. All parties must comply with the applicable Invoice Deadline Date under 47 CFR Section 54.514, including any timely requested extension, rather than relying on a single deadline measured only from the last day of service. Pricing and technology infrastructure information submitted as part of an FCC Form 471 will be treated as public and non-confidential in accordance with 47 CFR Section 54.504(a)(2), unless a valid statute, rule, court order, or other applicable restriction bars public disclosure. Contracts and agreements executed after the adoption of that rule may not prohibit disclosure of pricing or technology infrastructure information, and the exception for an existing contract limitation does not apply to voluntary extensions or renewals. This language is provided as a compliance review and guide, not as legal advice.
