State and Local Procurement Restrictions

The District intends to evaluate proposals and make up to four separate awards, with one award per section: Cabling Components / Other; Network Switching, Transceivers, Modules and Subcomponents; APC Batteries / UPS; and Ubiquiti Switches. Vendors may bid on one, multiple, or all sections and are not required to bid on every section. However, each section bid must include all listed items and the full requested quantities within that section, using the specified products or equivalents. Partial bids within a section will be considered nonresponsive for that section. Proposals must include itemized unit pricing, extended pricing, and a separate total for each section bid. Each section will be evaluated independently and must be available for award independently of

any other section. The same vendor may receive awards for multiple sections. This Form 470 is for equipment and materials only; no installation, configuration, or other professional services are requested under any section.
