Narrative
See the William Floyd FY2027 C2 Projects RFP attached for specific detail, deadlines and requirements. Vendors have the responsibility and must check/monitor USAC Erate Productivity Center (EPC) Portal for any extensions, revisions, information, clarifications, Q and A, addenda, etc. Mode of contact must be followed as explained in RFP and questions/clarifications/bids must be submitted in accordance with RFP specifications and any other form of communication will be disregarded and failure to comply with deadlines and designated mode of contacts may result in disqualification. Services and quantities are estimates and may be for up to and including any erate eligible entities as requested by applicant. All supporting components like modules, patch cables, patch panels/trays, connectors, surface mount raceway, mount boxes, etc are bundled in together under Antennas, Connectors and related components for all projects. USAC may deem MIBS/BMIC categories cover new and existing cable management, maintenance and organization, or installation of existing products/services. To the extent that USAC may deem any part of the licenses/services for

new equipment or existing as BMIC/MIBS, service type line items have been selected. If specific products, equipment, services are listed, the school will consider proposals for equipment manufactured by other companies that is equivalent in quality and functionality. Such equivalent manufacturer proposals must list alternative equipment manufacturer, model number, and bundled warranty information. Equivalent manufacturers also must include in their proposal manufacturer proof such as manufacturers specifications or other similar documentation that the equipment is equivalent in quality and functionality, and is interoperable with any equipment listed. Applicant will be the arbiter of whether the proposed solution is functionally and technically equivalent to the requested solution. Vendor response must segregate erate eligible and ineligible products and services and costs and should include all applicable taxes, surcharges, fees, installation, configuration charges, as requested etc. Vendor responses to 470 and resulting agreements must offer the Lowest Corresponding Price as mandated by USAC. We may enter into mtm, annual, multi-year contracts that allow voluntary extensions and periodic re-negotiation of service and pricing levels. Any agreement is contingent upon erate funding and Board Approval. Contracts/Agreements/470 may be revised, amended and extended and considered a minor modification. Proposals that are generic/encyclopedic lists of products/services, pricing, and/or are not responsive to the specific needs and requests in the 470 narrative and RFP will be disregarded/disqualified. Vendors must be erate literate and in compliance with all erate rules and agree to provide all erate related documentation in a timely manner upon request. By submitting a proposal on the requested services herein, the vendor certifies that its equipment and services are compliant with the FCCs Order regarding Lowest Corresponding Price (LCP) and Order prohibiting the sale, provision, maintenance, modification, or other support of equipment or services provided or manufactured by Huawei, ZTE, or any other covered company posing a national security threat to the integrity of communications networks or the communications supply chain.
