Narrative

We are seeking networking equipment and cabling to buildout a new network across our 3 buildings to include 28 classrooms, 19 offices and 43 common areas with 40-50 staff and up to 500 students. We will conduct multiple walkthroughs so that vendors can obtain the additional information needed to design and propose the most cost effective solution possible that will be robust enough to meet our needs. The quantities below are estimates at this point and vendors should adjust accordingly based on their own assessments and expertise. The actual number of devices that will be needed for the project could be greater or lesser than the quantities in this form depending on the solution proposed.

The cabling line items are referring to complete cabling for the 3 buildings with a minimum 10GB backbone. The quantity 3 is referring to 3 buildings rather than 3 feet as indicated.

We are seeking pricing for the following:

Approx. 10 switches (vendor proposed solution may vary in quantity)
1 firewall unless the vendor determines additional firewalls are necessary.
at least 47 Wireless Access Points for our 28 classrooms and 19 offices (vendor proposed solution may vary in quantity)
43 common areas will need internet coverage but that coverage may not require a full 43 access points (vendor proposed solution may vary in quantity)
3 UPS devices (1 UPS device for each building - vendor proposed solution may vary in quantity)

The proposal should include all connectors and related components needed for the proposed networking equipment

We are also seeking cabling and network closet cleanup at each of the 3 buildings if the proposed solution will use existing cabling or networking infrastructure

Pricing for the racks needed for the cabling and infrastructure buildout and/or the network closet cleanup should also be included (Qty. 1 refers to 1 network - Multiple racks may be needed)

All proposals should include any additional cables, components, licenses and warranties needed for operation of the proposed network solution.

All ineligible and partially eligible charges must be expressly marked as such in the proposal.

Vendors must contact the technical contact listed below by email to request a walkthrough. All other requests for information, questions, and proposals should also be sent by email to the technical contact listed below.
