St. Elmo Public Library System is requesting proposals for delivery of leased lit fiber or other modes for delivery of Internet access as a bundled service to the Library system and branches. St. Elmo Public Library System will entertain a bid to provide this service for all three locations or a bid per individual branch. The new service is to begin on July 1, 2027.

a. Contract options are requested for [12 month, 36 month and 48 month] terms of service.
b. All costs required to deliver the proposed solution must be included in the bid(s). By submitting a bid(s), including all monthly recurring charges and all installation charges. Costs added to the quote after the respondent has submitted their bid(s) are solely the responsibility of the respondent and not the applicant.
c. If a bandwidth upgrade is requested mid-contract the term length does not reset or renew. For example, if an upgrade occurs in month 20 of a 36-month contract, then 16 months of service must remain on the contract at the new bandwidth before a contract renewal is available.

All locations:

St. Elmo Main Branch – 311 W Cumberland Rd., St. Elmo, IL 62458
Brownstown Branch – 120 W Main St., Brownstown, IL 62418
Beecher City Branch – 1358 IL-33, Beecher City, IL 62414

Services and pricing for each location: 50Mbps-500Mbps
