Please reference Form 470# 270004886 on all correspondence. You must refer to the attached RFP document for full details. Please address Technical questions to the Technical Contact. All cost proposals must reflect any available governmental unit discounts. Each line item on proposal should clearly list Quantity, Manufacturer, Part Number, Description, Unit Price, and Extended Price. Proposals MUST separate eligible and ineligible services by line item for all services to which service provider responds. If a product includes mixed functionality, please indicate the allocation for each function (i.e. 60% Internal Connections and 40% BMIC). Vendors may submit alternative equipment as long as the equipment is an equivalent make and model or serves a similar functionality. Please note: USAC has advised applicants to include all three types of service on each Category 2 Form 470. MIBS was listed above in case USAC deems any of the necessary software licenses to fit that category. .

State and Local Procurement Restrictions

We will consider multi-year contracts with or without voluntary extensions. All cost proposals must reflect the LCP (Lowest Corresponding Price), GSA pricing, and any available governmental unit discounts including existing state purchasing agreements or contracts when applicable. Any proposal referencing an existing state purchasing agreement or contract must include that information in the proposal. Bid prices must be complete for the services proposed and shall include all associated costs, even if the amounts are estimates based upon current applicable taxes, surcharges, or fees. Each line item on proposal should clearly list Quantity, Manufacturer, Part Number, Description, Unit Price, and Extended Price. Proposals MUST separate eligible and ineligible services by line item for all services to which service provider responds. No proposal can be submitted that includes equipment or components for equipment from companies deemed to provide a national security risk as defined by FCC Order 19-121. All bidders are encouraged to: 1. Read and follow the RFP carefully. 2. Adhere to the FCC E-Rate rules.

.

The Applicants review of information will be primarily focused on the substance of the details provided in response to the requirements herein including but not limited to technical details, pricing and terms, experience, references, and adherence to the response format provided. Per E-rate rules, the cost of eligible goods and services will be the most heavily weighted evaluation factor.

.

Proposals must be prepared with specificity with regard to the equipment and/or services listed herein. Bids merely listing a general menu of equipment and/or services available from a vendor, bids appearing to be automatically generated without specificity in relation to the requirements of this RFP, and bids missing substantial information but inviting the applicant to contact the bidder to refine the bid and/or discuss specifics will not be considered valid bid responses and will be disqualified from consideration. This includes any SPAM and/or robotic responses. For more information, please review the USAC E-Rate News Brief of February 15, 2024.
