Narrative

The Chandler Unified School District is rebuilding Hartford Elementary, which will require an installation of a new network demarcation point.
The new school will be constructed adjacent to the existing campus while retaining the same address: 700 N Hartford St, Chandler Az 85225.

The current demarcation point is on the southeast side of the property on Hartford Street. The new demarcation will move north on Hartford Street towards Evergreen Street. See the attached map for general location.

The new facility is expected to come online in summer 2027. Existing buildings will remain in use until construction is complete, after which older structures will be demolished and the site redeveloped.

It is the intent of the District to award a 4-year or 1-year contract, with optional extensions not to exceed a total of 48 months. The contract term shall begin on July 1, 2027. If the service acceptance date is after July 1, the contract term may be reduced at the discretion of the District.

The current solution is a metro Ethernet solution with the hub located at the District Office (1525 W Frye Rd, Chandler, Az 85224). The District is seeking proposals for a fully managed, lit service WAN with pricing for a minimum 10Gbps and maximum 100Gbps bandwidth with 10Gbps increments.

All original contracts offered that are less than a 48-month term should include specifications that allow for annual one-year extensions and/or month to month extensions at the discretion of the applicant; not to exceed a total of 48 months. The district has a current contract in place for the WAN network districtwide. This change may be included in the existing contract.

Submitted quotes must identify pricing for all bandwidth levels requested; and must be included in the contract. Partial quotes may be disqualified.

Contract must allow for upgrades to quoted bandwidths.

Submitted quotes must identify the cost for all non-recurring expenses, including but not limited to construction of conduit, trenching, campus assessment, engineering, project management, documentation, contingency, installation, configuration, travel, taxes, etc. The successful vendor must obtain and pay for all permits and inspections required by all legal authorities and agencies having jurisdiction for the work.

All taxes, including sales taxes, must be identified separately. Sales tax will not be included in the competitive evaluation of the quote but will be included in the E-Rate Funding Application.

The RFQ Response must include a proposed implementation plan including a proposed cut-over date.

The vendor must provide and be responsible for all coordination, work and correspondence required to facilitate the required services, interface, charges, cut over schedule, and dates.

_____

THIS PROCUREMENT IS NOT A FORMAL SEALED BID/RFP PROCESS. There are no state or local restrictions or regulations on how service providers can contact the District's technology or business manager. Arizona State Procurement Code requires a formal sealed bidding process; or purchasing from an IGA, State Master Contract, other approved cooperative purchasing contract, or compliant consortium procured contract for any procurement in excess of $100,000.00. Any quote/proposal whose total value exceeds $100,000.00 and is not linked to a current State Master Contract, other approved cooperative purchasing contract, or a compliant consortium procured contract will be disqualified by Arizona State Procurement Code. Any quotes must comply with the underlying state master/cooperative purchasing agreement in pricing and terms. Any quote/proposal submitted that does not specifically address the services requested, is generic in nature or otherwise does not meet the requirements contained in this Form 470 and associated specifications may be considered non-responsive and may be disqualified. SPAM and/or robotic responses will not be considered valid bid responses and will be disqualified from consideration. All original contracts offered that are less than a 60 month term should include specifications that allow for annual one year extensions and/or month to month extensions at the discretion of the applicant; not to exceed a total of 60 months. Please quote all eligible and ineligible products/services separately. Any pricing proposed must comply with the FCC Lowest Corresponding Price Rule as required by the Universal Service First Report and Order, and restated in the FCC E-Rate Modernization Report and Order, adopted July 11, 2014. The FCC Lowest Corresponding Price rule prohibits an E-rate services offeror from offering or charging E-rate applicants a price higher than the lowest price that the offeror charges to non-residential customers who are similarly situated to a particular school, library, rural health care provider or consortium that purchase directly from the offeror.
