Summary of the HCP's requested services. :

The Consortium Member is soliciting proposals from qualified vendors to furnish, implement, and support network hardware and to provide ongoing managed services for a secure broadband network environment serving the sites listed below. The selected vendor will be responsible for delivering and maintaining the network infrastructure required to support reliable clinical operations and connectivity, including (as applicable) managed firewall services, managed switching, secure server/network equipment support, and continuous monitoring and management of the network and related devices. Services are expected to include 24x7 monitoring, incident detection and response, configuration management, firmware/patch management for network devices, performance optimization, and routine reporting, with the goal of ensuring high availability, security, and consistent performance across all participating locations. The member is not seeking a single provider solution. Bidders may propose a solution related to the particular services and/or equipment for which they have the capacity to provide. Requested Contract Term: Month to month and up to 3 years
