RFP and Summary

Is the HCP likely to request more than \$100 000 in program support from this request for services?: Yes

Do state, Tribal, or local procurement rules require the HCP to include an RFP with this request for services application?: No

Will the HCP be including an RFP with this application?: Yes

Summary of the HCP's requested services. :

Network Managed Services, Transport and Internet Access are sought to support ongoing network operations and ensure reliable, secure connectivity for healthcare delivery. Medical Grade Networks are designed to be resilient, highly available, and hardened to provide transport and Internet connectivity to Healthcare Providers, partners, and critical systems such as Electronic Health Records. Proposed services may include point-to-point transport, MPLS, Ethernet, Internet access (including colocation-based or Low Earth Orbit solutions - as examples), VPN services, managed firewall functionality, professional services, and rack space necessary to make connectivity operational. Colocation services, if proposed, are limited to housing eligible network infrastructure required to support broadband connectivity and do not include application hosting, cloud computing, or other ineligible IT functions.
