## RFP and Summary

Is the HCP likely to request more than \$100 000 in program support from this request for services?: No

Do state, Tribal, or local procurement rules require the HCP to include an RFP with this request for services application?: No

Will the HCP be including an RFP with this application?: No

### Summary of the HCP's requested services. :

Services can't be split-apart It's important to understand that while these are spread out across the various locations, the Managed Services and Project labor portion of the quotes can't be split. For example, you couldn't decide to use the SOC SIEM agent across 2 locations, but not across the rest. Managed Services are Annual Totals The prices on the quotes for the Managed Services are Annual Totals, so a grant could cover them. At the end of the year, we could evaluate another year, or they would change into monthly reoccurring. LAPTOPS There are 40 laptops total across the various quotes. You can add additional warranties and docking stations, if desired (unselected for now) MANAGED SERVICES ANNUAL M365 Business Premium This upgrades you to the version need to properly migrate to Azure/Entra and better security. Keeper Enterprise A strong recommendation for managing passwords centrally. SIEM Agent This is a service on each computer that monitors the security logs on local systems, and correlates them with various services. A 24/7 team monitors and escalates suspicious activity. PROJECT LABOR Azure Migration Project This has been an ongoing discussion. This no longer includes moving your email and files, because you would stick with Google email/drive for now, but it includes getting Microsoft and Google to tie into each other for an easier experience. Keeper Password Manager Setup Time for configuring this SIEM Setup Time for configuring this Laptop Setup, etc. Time for configuring laptops, installing, migrating etc. EHR Pataongia for all charting needs for our Personal Family Health Clinic and harm reduction across all locations
