Summary of the HCP's requested services. :

The Southern Ohio Health Care Network (SOHCN) serves the telecommunications requirements for 500+ healthcare facilities in Ohio and adjoining states as depicted in Figure 1. Each of the participating health care providers (SOHCN Participants) have executed a letter of agency (LOA) authorizing the SOHCN to issue this RFP and negotiate the Master Service Agreements (MSAs) on their behalf. In this Request for Proposals (RFP), the SOHCN seeks responses from

telecommunications carriers (Respondents) regarding pricing for high-speed connections across the SOHCN service area. In addition to costs, we also seek technical profiles of carrier networks as well as responses to key terms and conditions. This RFP applies to: # The nearly 500 existing SOHCN Participant locations, the list of which will be provided to those carriers expressing interest in responding [see Section 2.2]. # Any healthcare providers in Ohio, West Virginia or Kentucky who join the SOHCN during the course of the resulting Master Service Agreements (MSAs). We intend to make awards to multiple Respondents with the goal of every SOHCN location having a minimum of two carrier options. Some awards may be sweeping, covering a large percentage of locations. Smaller awards may focus on specific geographic niches to achieve full carrier diversity. Originally focused on the rural counties of southern and eastern Ohio, the SOHCN now reaches most of Ohio as well as portions of West Virginia. At present, the majority of the SOHCN Participant's sites are in Ohio. The SOHCN operates as a consortium of its members under the Federal Communications Commission's (FCC) Health Care Connect Fund (HCF). The SOHCN is as a 501(c)(3) managed by a board drawn from the consortium's membership.
