Narrative

The Providence Athenaeum is a private, member-supported library that employs approximately 10 full time and 10 part time employees. The library is open to the public seven days a week and averages just over 100 visitors per day. Telephone service is an essential tool supporting circulation, public programming, fundraising, and general office activities.

Present call volume in and out of the organization necessitates maintenance of 5 POTS phone lines all in a single hunt group, with the last line also serving as a fax line. These lines interface with an internal Partner ACS phone system supporting about 20 extensions. We seek quotes for 5 POTS phone lines or equivalent alternative service that will interface with an on-site PBX, preferably our existing Partner system unless a substitute PBX can be recommended for separate purchase by the Providence Athenaeum to optimize phone line pricing.

Please note that the Providence Athenaeum is a private library. At the time of this bid request, our applicant type is listed as “library system”. USAC is aware of this problem and working to fix under service request #70615.
