

BETHLEHEM AREA SCHOOL DISTRICT

FORM 470# 230005560

BULLETIN# 1

RE: QUESTIONS AND ANSWERS

---

- 1) Would the District reconsider the item 6.D. requiring all sites be delivered for service July 1, 2023 (or else requiring bill credits)? No
- 2) Does a vendor have to propose both the WAN and the Internet? Per the RFB, "Offerors' proposals must include all services listed within this RFB (both Internet Access and Transport for all specified locations- partial bids will not be considered.)"
- 3) What is the scoring matrix you intend to use (criteria and %/points for each)? Per E-rate rules, the price of E-rate eligible goods and services will be the most heavily weighted criteria.
- 4) Would the District consider also requesting MTM and 1-year initial terms? The District is not interested in MTM or 1-year initial terms. Please refer to the RFB for terms requested.
- 5) We are interested in bidding internet only. Will they even look at my bid if I am only bidding the two locations for internet? Per the RFB, "Offerors' proposals must include all services listed within this RFB (both Internet Access and Transport for all specified locations- partial bids will not be considered.)"
