

CULPEPER COUNTY LIBRARY

BEN: 126464

FORM 470#: 240010214

QUESTIONS AND ANSWERS

1. I saw in the RFP that you are requesting 1 Gbps x 25 Mbps, can you please verify what you mean by this? *The library currently receives 1 Gbps x 25 Mbps internet service. They are looking to receive something similar to the current service or any other solutions up to 5 Gbps.*
2. Is this request different from the one you put out last year in November/December that we submitted a bid for? If not, can we add an amendment on to our original bid for the higher speeds? *So this new Form 470 # 240010214 is a repost of the Form 470 that was posted in November/December which was recently canceled. The only difference is we are requesting for asymmetrical and symmetrical solutions since the original request for "dedicated" internet access on the RFP was erroneous. As a result, since this Form 470 is different, we would request a new proposal response towards this new Form 470 be submitted.*

***** Please note: All bids are due on or by Friday, February 2, 2024. *****
