

Questions Received on 2024 Roane County WAN RFP

Purpose

This document lists all questions received in response to E-Rate Form 470 #24003549 since its publication on November 1, 2023, as well as the answer provided.

E-Rate Applicant BEN	126674
E-Rate Form 470	24003549

Question 1 - A potential vendor asks if conduit is available to the new location of Spencer Middle School and Roane County Athletic Complex, and if service to the Paul L. Cummings 4-H / FFA Barn should be provided via Lick Fork Road rather than another route via available conduit or utility poles.

Answer: Yes, conduit has been laid to enter the new Spencer Middle School structure and separately to Roane County Athletic Complex. Service to the Paul L. Cummings 4-H / FFA Barn via Lick Fork Road is preferred as no conduit is laid nor are utility poles present from the south side of the facility (facing Roane County Athletic Complex and Roane County High School). Lighting is attached via poles in that area but is insufficient for additional attachments.

No further questions were received.
