The district's current Internet bandwidth is 100 Gbps. Voice services consist primarily of fiber-based PRI T1s, SIP trunks, and Plain Old Telephone (POTs) services to physical PBX or VoIP systems at each location. Additionally, voice and data services are used to support communication for security alarms, elevator call boxes, fire alarms and energy management systems district-wide.

Miami-Dade County Public Schools (M-DCPS) departments that shall be performing under this proposal include but may not be limited to; ITS Network Services (CORE), Infrastructure and Systems Support (EDGE), Telecommunications (VOICE), Network Support Desk, the Adds, Moves and Changes Desk (AMC), E-Rate, and various District and in-house Procurement, Maintenance and Utilities administration teams.

A list of District locations has been provided in the Pricing Sheet which clearly identifies district core/data centers, public schools, administrative buildings, and remote locations. The picture below represents the current logical network design. Vendors are encouraged to include network diagrams in their proposal.

E-Rate Central has been retained as independent consultant. The consultant acts solely in its capacity as consultant and does not sell telecommunication services or equipment, directly or indirectly.

The agreement between the successful proposer(s) and the Board will be non-exclusive.

SECTION 4.3 – REQUIRED SERVICES

This Invitation to Negotiate (ITN) seeks individual proposals for the Telecommunication Services that includes the following:

- Internet Connectivity
- Distributed Denial of Service (DDoS) Mitigation (Ineligible for E-Rate)
- WAN Connectivity
- Voice Services (Ineligible for E-Rate)
- Long Distance service (Ineligible for E-Rate)

Offers for services requests in Section 4 may be proposed separately or as part of a package as long as the vendor clearly identifies E-Rate eligible and ineligible items. Each section will be evaluated independently, and an award will be made for each different service. Pricing must not be contingent on the award of multiple sections.

SECTION 4.3.1 Internet Connectivity - The M-DCPS centralized district data center requires multiple connections at 100 Gbps of Internet access. Registering a Public ASN number and Border Gateway Protocol (BGP) routing is the responsibility of the provider.

This ITN describes the District's needs and requirements that it expects the Service Provider to address. This ITN does not dictate a specific technology for the service provider. As a result, Offerors have great latitude in their technical approach for meeting the District's requirements and service levels. The District will consider any technology or topology, as well as combinations of those technologies that can meet the bandwidth and service level requirements in this ITN.

The Offer must demonstrate to the District that its approach will meet the District's requirements. The solution should be robust and scalable, and to the extent financially feasible avoid a single point of failure. The district is not willing to consider solutions that include the delivery of leased dark fiber or self-provisioned network to the district.

To meet future network and connectivity demands, the District reserves the right to purchase additional 100 Gbps connections at the current Data Center and a second egress site to be determined. Vendors should provide the not-to-exceed cost of providing additional 100 Gbps circuits to any location within the district's geographic footprint.

- To meet the current bandwidth needs of the District, Offerors are requested to provide pricing for 100 Gbps connection(s) as detailed on the Pricing Sheet.
- All circuits, including circuits added or upgraded during the duration of the contract, must be co-terminus and end on June 30th. It is expected that any new or upgraded circuits will have the same monthly recurring charge as all other similar circuits with a reasonable one-time charge to account for any connection costs.
- The proposal must include all hardware, such as but not limited to routers, switches, SFP, transceivers, Fiber patch cords, and fiber distribution units, required to provide a finished end-to-end service.
- Costs must be inclusive of any fees relating to cross-connects that may be required to provide connectivity to the M-DCPS rack at the Information Technology Services (ITS).
- The vendor must have a 10-year track record of providing internet access service to entities similar in size to M-DCPS.

SECTION 4.3.2 Distributed Denial of Service (DDoS) Mitigation – DDoS services for M-DCPS shall support the entire bandwidth of Internet access. M-DCPS staff shall be provided access to real-time data traffic monitoring and reporting tools including graphs, charts, web portal, email alerts, etc.

SECTION 4.3.3 WAN – M-DCPS is seeking bids for a fully managed network solution. Currently M-DCPS has a network with a hub and spoke architecture with up to 500 Gbps of aggregate bandwidth to the data center, capable of serving up to 500 sites with most sites receiving one (1) Gbps to ten (10) Gbps per site. There are a few sites

that are not currently at one (1) Gbps, but the district is working to move them to one (1) Gbps. Remote locations are currently standardized with 1 Gbps ethernet ports on the Layer 3 access layer appliances, with some sites upgraded to 10 Gbps ports. There are future plans for upgrading more sites to 10 Gbps capable equipment. The proposal must allow for incremental bandwidth increases up to 10 Gbps. The appendix lists the names of sites and addresses.

- a. The proposal must provide pricing for all current district locations within the District's footprint.
- b. The proposal must provide pricing for 500 Mbps, one (1) Gbps, two (2) Gbps, four (4) Gbps, eight (8) Gbps, and ten (10) Gbps to all locations, as detailed on the Pricing Sheet.
- c. The proposal must include all hardware, such as but not limited to routers, switches, SFP, transceivers, Fiber patch cords, and fiber distribution units, required to provide a finished end-to-end service.
- d. Costs must be inclusive of any fees relating to cross-connects that may be required to provide connectivity to the M-DCPS rack at the Information Technology Services (ITS).
- e. There must be a clear demarc between vendor and district owned equipment. The vendor may NOT connect directly to the district switch or router. Any such connection will be accomplished via a district owned jumper cable.
- f. The vendor must have a 10-year track record of providing WAN services to entities similar in size to M-DCPS.
- g. All circuits, including circuits added or upgraded during the duration of the contract, must be co-terminus and end on June 30th. It is expected that any new or upgraded circuits will have the same monthly recurring charge as all other similar circuits with a reasonable one-time charge to account for any connection costs.
- h. In each building, Contractor must run infrastructure or service to an existing (TR / ER / MDF, etc.) designated by Owner. Proposals bringing service to the property line but not inside of the demarc address (TR / ER / MDF, etc.) are not acceptable.
- i. The district has no preference for Out of Band Management but is open to it if offered as part of your proposal.

SECTION 4.3.4 Voice Services

Provide comprehensive information on the types of voice circuits you can provide to serve up to 500 standalone PBXs and VoIP systems serving approximately 50,000 digital, analog, IP, SIP end points, and 15,000+ DID numbers. The intent of this ITN is to migrate all existing copper services to fiber where applicable but explain the capability to provide copper services. Dedicated fiber used for voice services is not eligible for E-Rate Funding.

- a. Provide comprehensive information on how you will interface service to existing M-DCPS telephone systems.
- b. Provide comprehensive information on your Call Accounting, TDoS, E-911 and NG-911 offerings.
- c. Provide comprehensive information of your portfolio of available voice offerings, their advantages and disadvantages, and reliability.

SECTION 4.3.5 Long Distance Services - Provide comprehensive information on available offerings for long distance services.

The proposal submitted must clearly indicate the name of the responding firm, as well as the name, address and telephone number of the primary contact at proposer's organization. The proposer shall demonstrate their experience in the Telecom Services industry.

SECTION 4.3.6 – Other Services

In addition to the ITN proposals noted above the proposer shall provide a table of the entire portfolio of services with service descriptions which the proposer can provide. Examples include but are not limited to the following: Content Filtering, Cloud, Storage, Resiliency/Redundancy, Hosted offerings, etc.

Proposer must provide a plan to maintain the current M-DCPS services and levels or an equivalent alternative if a transition period is required for the proposed solution. It is the expectation of M-DCPS, that there will be no interruption of services during the transition period.

Service provider shall provide details of transition timeline and coverage maps for proposals they are submitting for M-DCPS consideration. Furthermore, the service provider is required to provide a proposed network design and a list of hardware and software to be used in the solution.

The agreement between the successful proposer(s) and the Board will be non-exclusive.

SECTION 4.5 – SPECIAL CONSTRUCTION (only applies to installation of new service)

1. Special Construction

- a. In E-rate terminology, **special construction** refers to the upfront, non-recurring costs associated with the installation of new network facilities to or between eligible

entities.

- i. Special construction and service eligibility for reimbursement have changed starting in E-rate Funding Year 2016. See the Federal Communications Commission E-rate modernization order 2 (WC Docket No.13-184).
- b. Special construction charges eligible for Category One support consist of three components:
 - i. construction of network facilities
 - ii. design and engineering
 - iii. project management
- c. If no new network is being installed, then any installation costs are considered standard **non- recurring costs (NRC)**.
 - i. For leased lit fiber solutions requiring special construction, this means that the costs associated with building the fiber are considered special construction, and the costs associated with the equipment required to activate the service are a standard NRC.
- d. Special Construction Payment Plan Option
 - i. The applicant requests that the respondents consider allowing the Applicant to pay the non-discount share of special construction costs (the portion of costs that are the responsibility of the applicant) to be paid in equal monthly installments over four years from Funding Year 2024 to Funding Year 2027 inclusive. Responses must indicate agreement or non-agreement with this request.
- e. Excess fiber strands for special construction projects
 - i. To the extent that the winning service provider installs additional strands of fiber for future business ventures, the winning service provider assumes full responsibility to ensure those incremental costs are allocated out of the special construction charges to the district in accordance with Federal Communications Commission (FCC) rules and orders.
 - ii. If, after the issuance of the Funding Commitment Decision Letter (FCDL), Universal Service Administrative Company (USAC) or the FCC determines that the winning service provider did not cost allocate those charges associated with the additional strands, the Applicant will not be responsible for reimbursing the winning vendor and the winning vendor will assume all responsibilities deemed

ineligible by USAC.

- iii. All respondents must disclosure all direct or indirect cost pertaining to the project.
Any cost not disclosed would be the responsibility of the respondent.

SECTION 4.6 – ADDITIONAL SPECIFICATIONS

The selected vendor shall comply with all Municipal and County ordinances and codes and apply for all permits as required to perform the work.

SECTION 7 - EVALUATION/SELECTION PROCESS

SECTION 7.1 - COMPETITIVE ITN PROCESS

- (a) The selection process under this ITN shall be a competitive process that shall utilize and be governed by the authority, methodology and guidance established within School Board Policy 6320, Purchasing, located on the District's website at [Procurement Management Services \(dadeschools.net\)](https://dadeschools.net).
- (b) Also see Section 3 of this document for additional information and provisions applicable to this competitive ITN process.
- (c) M-DCPS selected the ITN process as the best way to obtain the required combination of best value pricing and excellent services from companies with a proven track record.

Step 1: Solicitation and evaluation of written responses leading to the selection of one or more vendors with whom the M-DCPS will negotiate. Proposals will be evaluated by the Selection Committee to determine a short list of companies whose written responses best address M-DCPS's priorities. Failure to make the short list eliminates that firm from further consideration.

Step 2: Demonstrations of the proposed system solutions shall be conducted from those firms short-listed under Step 1 above.

Step 3: As the best interests of M-DCSP dictate, after the demonstrations have been conducted and follow up questions have been answered by the Vendors, the Selection Committee shall select (1) or more firms to enter into negotiations with the Negotiation Team.

Step 4: Negotiations with those firms selected under Step 3 above may include the further refining of exact specifications, terms and conditions and price structure. As the best interests of M-DCPS dictate, negotiations are conducted; the Team will engage and attempt to reach a contract with the Vendor(s) selected under Step 3 above. If the Team is able to reach a contract with one of these vendors, negotiations with the other vendors will not take place. If the Team elects to negotiate with two or more vendors concurrently; then at the end of the negotiation period, vendors with whom negotiations have progressed satisfactorily will be asked to submit a written Best and Final Offer to finalize all agreements reached during negotiations and to extend additional benefits to M-DCPS, if desired.

Step 5: Award of contract or evaluation of the Best and Final Offer(s), followed by a contract award. The negotiation process will end upon submission of the Best and Final Offers and vendors will not be allowed to make further adjustments to their offer or communicate further with M-DCPS except to respond to requests for clarification. The final decision will be based upon the initial written response, negotiation sessions, and best and final offers.

SECTION 7.2 - EVALUATION CRITERIA

The Selection Committee (hereinafter referred to as "Committee") will evaluate all eligible and responsible proposals based on the evaluation criteria listed below. The criteria are itemized with their respective weights for a maximum available total of one hundred (100) points. A Proposer may receive all or a portion of this amount depending on the merit of the proposal and in relation to the competing proposals as determined by the Selection Committee. Please note, the Selection Committee members will review all proposals, based upon the criteria listed below, and may determine to complete a consensus vote or rank proposals for additional evaluation, which may include oral presentations, individual proposal negotiations and/or product demonstrations.

All proposals accepted by M-DCPS, will be reviewed to determine eligible agencies that meet all submission requirements prescribed in the ITN. A Selection Committee composed of representatives from M-DCPS will evaluate and rate all proposals under consideration, applying the evaluation criteria prescribed below. M-DCPS may require a Proposer to make an oral presentation in support of a proposal.

This section represents the information that will be utilized in the evaluation of proposals received and assignment of points in accordance with the evaluation criteria listed. Proposers are cautioned to read this section carefully and respond with complete information that will assist the Selection Committee in evaluating proposals submitted. Proposers are requested to respond in the format and organizational structure stated and to refrain from including promotional or advertisement materials in their proposal. The maximum allowable points that will be awarded for each section are stated below. Failure to respond or incomplete responses to any evaluation criteria below will result in zero or reduced allocation of points for the criteria and may result in disqualification of the entire proposal.

The Selection Committee shall evaluate proposals received based on the following criteria and points:

CRITERIA FOR EVALUATION	AVAILABLE POINTS
Price of Eligible Products and Services	25
Price of Ineligible Products and Services	10
Technical adherence of the proposed solution to M-DCPS requirements (See description in Section 4)	20
